## **The Trampoline Buyer's Safety Checklist**

### **Price and manufacturer**

- Is the manufacturer reliable?
- Are the trampolines certified by a 3rd party?
- Does the trampoline have good reviews?
- Is the trampoline valuable?

### **Installation and maintenance**

- Are the assembly instructions clear?
- Does the trampoline come with maintenance instructions?
- Does the manufacturer offer spare parts?

### **Usage**

- Can the trampoline be used all year round?
- Does the trampoline come with safe usage instructions?

### **Quality and materials**

- Is the trampoline frame heavy enough?
- Is the frame made from high-quality materials (such as galvanized steel)?
- Are the materials UV-coated?

### **Safety features**

- Does the trampoline come with a safety enclosure?
- Is the safety enclosure designed for the trampoline?
- Is the safety enclosure high enough?
- Are the poles padded?
- Does the trampoline have safety pads that are wide enough?
- Is the safety net safe for fingers  
(no holes big enough for even the smallest fingers)?
