UNUSUAL FIRE AND EXPLOSION HAZARDS:
Closed containers may rupture or explode when exposed to extreme heat (due to build up of pressure). During emergency conditions, overexposure to decomposition products may cause a health hazard. Symptoms may not be immediately apparent. Obtain medical attention.

PROTECTIVE EQUIPMENT:
Firefighters should wear self-contained breathing apparatus and full protective gear.

6. ACCIDENTAL RELEASE MEASURES

PERSONAL PRECAUTIONS: Ensure adequate ventilation.
Avoid contact with skin, eyes and clothing.

CLEANUP: Prevent further leakage or spillage. Soak up with inert absorbent material and transfer to a suitable container for proper disposal.
7. HANDLING AND STORAGE

HANDLING:
Avoid contact with eyes, skin and clothing. Avoid breathing vapors, spray mists or sanding dust. Provide adequate ventilation. Wear appropriate respiratory equipment if ventilation is inadequate. Wash thoroughly after handling.

STORAGE:
Keep container closed when not in use. Transfer only to properly labeled containers. Keep out of reach of children.
