

Linear Bar Grille Section Breakdown

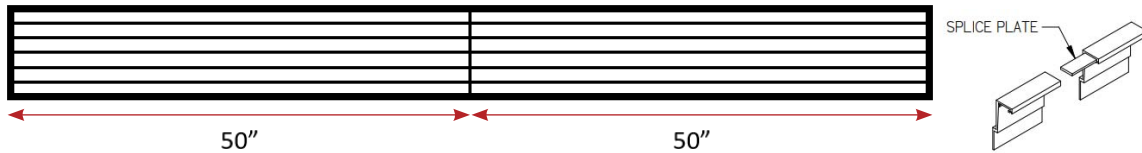

4" – 72"

- The maximum Linear Bar Grille single section length is 72" nominal.
- Example: an ordered length of 60" will result in a single 60" nominal linear bar grille.

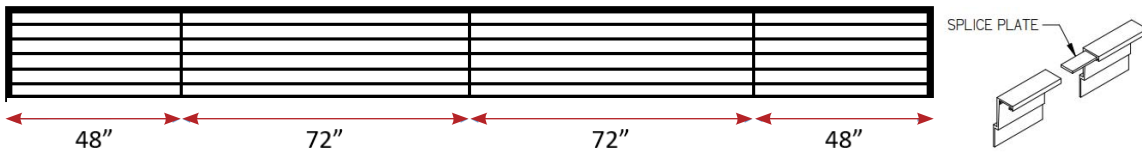

73" – 144"

- A Linear Bar Grille ordered between 73" and 144" nominal will result in (2) sections at equal length.
- The sections will each come with one open Y endcap and splice plates where they connect.
- Example: an ordered length of 100" will result in (2) equal sections at 50" nominal.

145" +

- A Linear Bar Grille ordered 145" nominal and above will result in a number of middle sections at the maximum length of 72" with YY endcaps and splice plates, and (2) equal length end sections each with a one open Y endcap and splice plates.
- Example: an ordered length of 240" will result in (2) middle sections at 72" each and (2) end sections at 48" each

- Example: an ordered length of 360" will result in (3) middle sections at 72" each and (2) end sections at 72" each
