

EVIA LOUNGE

The Evia lounge is a piece of radiantly heated outdoor furniture, the first and only of its kind. Smooth like a river rock, the Evia warms your entire body with its efficient and comfortable design.

Imagine the feeling of relaxing in a hot tub without getting wet. Now picture the Evia on your deck, in your garden, on a rooftop, or après-ski. The Evia keeps you warm in all seasons, day or night.

Designed and made by hand in California.

MATERIALS

Cast stone surface 1" thick with fully integrated colors. 180 lb with a powder-coated stainless steel base.

POWER & CONTROLS

Plug-in ready. Adjustable temperature controls for energy-efficient radiant heating. Standard 120V power, 1000 watts, 8.5 amps
