

## HELIOS METREO

The Helios is a piece of radiantly heated outdoor furniture, the first and only of its kind. Smooth like a river rock, the Helios warms your entire body with its efficient and comfortable design.

Imagine the feeling of relaxing in a hot tub without getting wet. Now picture the Helios on your deck, in your garden, on a rooftop, or après-ski. The Helios keeps you warm in all seasons, day or night.

Designed and made by hand in California.
