

Congratulations on your new

BeerGater®

You're five minutes away from being the life of the party!

Here's what's in the box:

Tap plate

Beverage tanks

CO2 Cartridges

Injector

(x1)

Corks
(size 00)

(x2)

(x1)

(x2)

(x2)

Before the event:

1

Cork the ends of the tubes so the tanks are sealed.

2

Fill the tanks with your beverage of choice, secure the lids, and put them in the fridge.

At the event:

3

Put the tanks on ice in your cooler.

4

Attach the hoses to the BeerGater® tap plate.

7

Pressurize the system with a SHORT CO2 burst. (1 sec.)

When beverage flow reduces, re-pressurize as necessary.

5

Hang the plate off the edge of the cooler.

6

Screw a CO2 cartridge into the injector.

You own the ultimate tailgate beverage station.
