*Market price is found at ICO.org as the average price for the month of the contract, for the relevant world market category.

** Producer price is defined as the price paid to either the farmer, or the entity doing the primary post-harvest processing (washing, drying for Naturals etc.). Calculated equivalent to export green USD/lb. The producer price is the same as the FOB price when the producer also takes care of export.

***SCA quality score is based on the 'Total Score Quality Classification' from SCA's Cupping Protocol:
 Below Specialty Quality [<80,0]
 Very Good [80-84,99]
 Excellent [85-89,99]
 Outstanding [90-100]
