

SIMPLE EASY CODE

Suitable for a variety of light duty entry control applications in commercial and residential premises.

The CL160 is a mechanical lock providing simple on-the-door code change, adding significant benefits to the management of the lock where regular code changes are required. The CL160 can also be retrofitted to existing lock prep, so simple upgrades are possible. Staying in control has never been easier. CL160 can be used to restrict access in residential properties and many commercial buildings.

Easy to install

Suitable for wooden doors

Limited lifetime warranty*

1,023

Total code combinations
