- **OPTIONAL INTEGRATED REQUEST TO EXIT SWITCH**

MOTOR DRIVEN | NO HASSLE 3 YEAR WARRANTY | PTS PUSH TO START TECHNOLOGY | UL

The new **MLRK1-TS/LSDA2** is a practical and cost-effective way to convert a mechanical Townsteel ED1000, LSDA PD9200 & USCAN series device to an electrified latch pullback device. The retrofit kit will maintain all UL listings on the device and for peace of mind is backed by CAT's 3-year no hassle warranty. The new unit easily hooks onto the back activating bracket and is secured with (2) screws, in a matter of seconds. The only hole you'll need to drill is for the wire raceway. PTS allows for a smooth post-installation adjustment of the latch/latches. An optional built-in REX switch is available on all units! Last but not least, it features an updated MM4S module with 2 different energy consumption settings from energy conscious to high torque to get the tough jobs done!
