System Overview

The S6 series are powered by Sony STARVIS sensor providing excellent night vision, together with true WDR and cutting-edge technology, the Pro series of 2MP starlight IP cameras are an ideal project-oriented solution for ideal images and video surveillance in indoor and outdoor environments from day to night. With embedded face recognition algorithm, the cameras support White/Black list event alarm deployment in different scenarios.

The P2P cloud function is built-in for every device, which is more convenient and flexible for remote real-time viewing.

Functions

H.265
H.265 technology is an evolutionary optimization of the traditional H.264. It includes series of encoding strategies such as dynamic ROI,smart 2D&3D noise reduction for delivering high-quality videos and greatly saving up to 70% bandwidth and storage.

Protection
With its precise mechanical and rugged metal casing design, IP cameras of the Pro series rated IP67 could stand against water and dust for a long time.

With 10% of input voltage tolerance, the cameras could work safely under extreme or unstable power conditions.

With a working temperature range from -30℃ to 60℃, the cameras could adapt to a variety of harsh outdoor environments.
