BROCHURE

LOW ENERGY OPERATORS

Experience a safer and more open world

ELECTROHYDRAULIC

- Electrohydraulic low energy operators incorporate a door closer for smooth reliable door control
- These units are used in applications where doors are typically operated manually, but can also be activated via wall switches, motion sensors, etc., for automatic operation

Full-length, modular backplate and cover spans a pair of doors

6000 SERIES

NORTON

ASSA ABLOY

- Modular design and interlocking backplate for easy one-person installation for single and double doors
- LCD screen and joystick controller simplifies setup
- Wiring harness positioned for easy access with screwdriver

VERSATILE CONFIGURATION & INTEGRATION

- Large onboard power supply for multiple system peripherals
- Configurable to meet virtually any site, activation or system integration requirements

ROBUST DESIGN DELIVERS RELIABILITY

- Uses 7500 Series heavy duty, Grade 1 door closer for smooth, reliable operation
- Heavy duty chain and aluminum backplate withstand rigorous applications
- Heavy duty arms available for deep reveal application

ERTIFIE

5700 SERIES

DEPENDABLE

• Uses 1600 Series closer for smooth, reliable operation

FLEXIBLE

- Non-handed
- Push or pull side mounting

VERSATILE

- Coordinates and powers electric strike
- Optional power cord eases installation on existing openings

5500 SERIES

COST EFFECTIVE

- Low cost automatic door operator with basic functions
- Optional power supply

FLEXIBLE

- Smaller footprint for tight spaces
- Non-handed
- Push or pull side mounting

SIMPLE

• Easy, one-person installation

ELECTROMECHANICAL

- Electromechanical low energy operators feature a motor and gearbox for consistent automatic operation
- These units are used in applications where automatic mode (activated by wall switches, motion sensors, etc.) is the primary function

SMART

- Power close ensures door closes to secure facility
- Occupant safety enhanced by obstruction detection, power assist, and push & go functions
- Customizable inputs and outputs for accessories, including security override and fire safety

SIMPLE

- Modular design allows for one-person installation
- Heavy-duty back plate serves as template simplifying and speeding installation
- Unit learns door properties (approximate weight) during installation for easy programming and set-up
- Easy setup via a mobile device

GOOD LOOKING

• Simply opens and closes the door to automate interior, non-fire rated doors

IDEAL FOR RETROFIT APPLICATIONS

- Unique design with slim profile blends seamlessly with frame
- Low profile easily fits applications with minimal header space

MODULAR DESIGN

- One-person installation
- Backplate serves as template simplifying and speeding installation

SLIM PROFILE

- Blends seamlessly with frame
- Fits challenging openings

SIMPLE CONTROLS

- Easy to set up
- Intelligent features

5800 SERIES

SIMPLE INSTALLATION

- Mounts on door
- No voltage / low voltage power to opening
- Kitted with stainless steel, weatherized RF wall switches

FLEXIBLE

- Can wirelessly interface with variety of systems, buttons and other devices
- Adjustable open/closing force
- Functions like ordinary door closer when used manually

DEPENDABLE

- Protection from high-wind & abusive environments
- Built-in battery backup allows use during power failure
- Brushless DC motor/gearbox tested 10+ million cycles converts openings for barrier-free accessibility

5200 SERIES

SUPERIOR USER EXPERIENCE

- Modular installation one-person install
- Operator is a secure, password protected WiFi hot spot no connection to building's IT required
- Simple setup; no app required
- View status and make adjustments without removing cover

UNPARALLELED VALUE

- Shared aesthetics, installation, and programming across all three operators
- Mix and match 6300, 6200 and 5200 Series throughout facility to maximize value to customer
