

Description:

AngeloFC full color night vision security cameras, with their powerful image sensors that are highly sensitive to light, allowing them to absorb more visible light. Therefore, AngeloFC cameras can capture images or videos in full color in low light conditions, contrary to normal cameras that would automatically switch to black and white mode in low light conditions.

With a resolution of 1080P Full HD available on AngeloFC cameras you can get the best image quality and a great deal of detail in low light conditions and full color.

Features:

- Day/Night camera with special lenses that detect color in all scenes
- CMOS Sensor
- 1920 x 1080
- IP66
- DC12V

Specification:

Resolution	1080P
Signal System	PAL/NTSC
Effective Pixels	1920(H)*1080(V)
Lens	3.6mm fixed lens
White Light Range	20m ~ 50m
Video Output Mode	AHD/CVI/TVI/CVBS Optional
Day/Night	Color
Video Frame Rate	25fps(50Hz), 30fps(60Hz)
