CarDAQ PLUS 3

All Makes J2534

Empower Your Shop's Independence:
CarDAQ-Plus 3 Puts You in Control of Vehicle Diagnostics

WE MAKE IT EASY TO COMPLETE COMPLEX REPAIRS FOR MORE VEHICLE BRANDS

- CarDAQ was the first J2534 device in the world
- 3rd generation device, leading protocols such as DOIP, PDU, and CAN FD
- More coverage than any other Jbox
- CarDAQ is more validated than any other J2534 device worldwide

Same coverage as the dealership for 2006-2024 vehicles

- OE R2R Apps enable:
  - Health check and DTC read/clear, including OE pre and post-scan
  - Live data
  - Bi-directional controls
  - Systems tests
  - All-module reprogramming
  - Key programming supported by NASTF
- Expert support from Opus IVS
- Access to J2534 toolbox
