# PWR-EPOE-24

24-Port Managed ePoE Switch

- Layer-two web managed ePoE switch
- Supports long distance PoE transmission up to 800m with ePoE technology
- Ports 1-8 support ePOE and POC technology
- Ports 1-8 support both twisted-pair transmission and coaxial cable transmission
- Supports PoE management, Green PoE, Legacy Support
- Supports web and port management, 802.1Q VLAN, STP/RSTP, LACP, 802.1X, QoS
- Conform IEEE802.3, IEEE802.3u, IEEE802.3ab/z and IEEE802.3X standards

## System Overview

The PWR-EPOE-24 is a 24-port ethernet switch, which supports up to 800 meters long distance ePoE transmission using ePoE rated cameras (ePOE supported on ports 1-8). The switch can transmit at the speed of 10Mbps, or 300 meters at the speed of 100Mbps over Cat5/6. Hi-PoE is also available on ports 1-2. Additionally, it supports Web and port management and adopts PoE and PoC power supply technology, which simplifies construction and wiring.

## **Technical Specification**

#### System

| -,                     |  |
|------------------------|--|
| Model                  | PWR-EPOE-24  |
| Ethernet Port          | 2*10/100/1000 Base-T<br>2*1000 Base-X (Combo ports)<br>24*10/100 Base-T (PoE power supply)           |
| PoE Power Consumption  | Port1 and port 2 support Hi-PoE 60W<br>Each power≤30W, Total≤360W                                    |
| PoE Protocol           | IEEE802.3af, IEEE802.3at, Hi-PoE   |
| PoE Budget             | 360W   |
| Switching Capacity     | 8.8Gbps  |
| Flow Control           | Support half-duplex based on back pressure type<br>Control; Support full duplex based on PAUSE frame |
| Long Distance Mode     | Extends the maximum distance from 100m to 800m   |
| Packet Forwarding Rate | 6.55Mps  |
| Packet Buffer Memory   | 2.75Mb   |
| MAC Table Size         | 4K   |
| Application Humidity   | 10%~90%  |
| Power                  | AC100-240V, 50/60Hz  |
| Lightning Protection   | Common Mode 4KV<br>Differential Mode 2KV   |
| Working Temperature    | -10°C~55°C   |
| Weight                 | 3.12kg   |
| Dimension(W×D×H)       | 440mm x300mm x44mm   |
| Login                  | Username / password: admin/User Defined  |
|                        |  |

| Default IP Address | 192.168.1.110/24  |
|--------------------|---|
| VLAN               | 802.1Q Standard VLAN  |
| Spanning Tree      | STP, RSTP   |
| Port Aggregation   | Static link aggregation, LACP   |
| Mirroring          | Supports many-to-one port mirroring   |
| Security Features  | Hardware supports IP+MAC binding based on port<br>Supports IEEE802.1x port authentication   |
| System Maintenance | One-key recovery of default, Supports updated packet upload and logs  |
| QoS                | Supports high and low priority, WRR; 802.1P, DSCP; Supports<br>priority according to protocol   |
| Network Management | WEB (http and https protocol), Support SNMP V1/V2C/V3   |
| PoE Management     | Support PoE power consumption, PoE on/off of IPC configuration,<br>power down when exceeding the value of overload power; Supports<br>PoE event statics, Green PoE and Legacy Support |

### **Transmission Performance**

ePoE Power Supply Specifications (CAT) - ePoE switch power supply voltage 53V. CAT6, max. DC resistance <  $10\Omega/100m$ .

| Cable (m) | Bandwidth<br>(Mbps) | PoE Load<br>Capacity (W) | Hi-PoE Load<br>Capacity (W) | Working Mode |
|-----------|---------------------|--------------------------|-----------------------------|--------------|
| 100       | 100                 | 25.5                     | 53                          | IEEE/E100    |
| 200       | 100                 | 25.5                     | 47                          | E100         |
| 300       | 100                 | 25.5                     | 32                          | E100         |
| 400       | 10                  | 23                       | 26                          | E10          |
| 500       | 10                  | 20                       | 20                          | E10          |
| 800       | 10                  | 13                       | 13                          | E10          |

ePoE Power Supply Specifications (RG59 Coaxial Cable) -ePoE switch power supply voltage 53V. RG-59, max. DC resistance <  $5\Omega/100m$ .

| Cable (m) | Bandwidth<br>(Mbps) | PoE Load<br>Capacity (W) | Hi-PoE Load<br>Capacity (W | Working Mode |
|-----------|---------------------|--------------------------|----------------------------|--------------|
| 100       | 100                 | 25.5                     | 52                         | IEEE/E100    |
| 200       | 100                 | 25.5                     | 48                         | E100         |
| 300       | 100                 | 25.5                     | 30                         | E100         |
| 400       | 100                 | 20                       | 23                         | E100         |
| 500       | 10                  | 16                       | 16                         | E10          |
| 800       | 10                  | 10                       | 10                         | E10          |
