ethernet**gateway**

Extend Network Coverage

Extend the WiMAC™ wireless signal by connecting this gateway anywhere on the local network. When connected, the pro wireless - ethernet gateway will coordinate connected wireless door controllers and feed the data back to the cloud node via a network. The ethernet gateway also gives you the ability to control doors in multiple buildings connected to the same network.

Model
PN: LZE

Specifications:

Communication
Ethernet
Encryption: AES 128bit
WiMAC™ Wireless Mesh (2.4 GHz / 802.15.4)
Wireless Range: 1 Mile LoS, 450ft indoor average

Environmental
Temperature: -20° ~ +60° C or -4° ~ +140° F
Humidity: 0 - 95% relative humidity non condensing

Enclosure
Dimensions (W x H x D) 2.75" x 3" x 1.125"
Metal Can

Weight
0.44 lbs (7.04 oz) W/O Antenna

Power
9 to 30V DC from included power supply

Included Items
Gateway, power supply, ethernet cable, and antenna
