

Electronic Touchscreen Deadbolt

Great Convenience

- Touch to activate, touch to lock
- Holds up to 25 user codes
- Holds up to 4 single-entry codes
- Vacation mode (deactivates all user codes temporarily)
- Auto-lock with adjustable delay (10 - 99 seconds)
- Back-up mechanical keyway

Uncompromised Security

- ANSI Grade 2 quality – deadbolt operates over 150,000 times
- ANSI A156.25 compliant - resistant to dust, rain, and corrosion under variable temperatures
- 4-digit random guiding code prevents code-probing
- Touch screen is temporarily disabled after 4 consecutive incorrect entries

Easy Installation

- Easy installation with a Phillips screwdriver
- Fits most standard door preparations
- Online video instruction available (please scan the QR code)
