

# SMART Pro LITE™

Vehicle Key Programmer

# SMART Pro LITE™

## The smarter choice...

Based on the same hardware platform as the original Smart Pro, the **Smart Pro Lite** is a simplified programming device that operates without the need to purchase tokens, software, or standard UTP (Subscription). To operate the Smart Pro Lite, customers will be required to use Ilco Transponder Keys and Ilco Look-Alike Remotes.

The application list for the Smart Pro Lite is based around vehicles that are supported by Ilco Transponder Keys, and Look-Alike Remotes. Comes with **free updates for one year!** At the end of one year, the Smart Pro Lite will require a very affordable annual update fee to receive any new vehicle application updates.

To use the Smart Pro Lite customers will scan the QR Code printed on the bags for Ilco Transponder Keys and Look-Alike Remotes using the MYKEYS Pro (MKP) app. Once scanned MKP will guide users through the process of moving their QR Code credit to the Smart Pro Lite.

## Same Feel, New Features

The Smart Pro Lite Key Programmer is similar to the Smart Pro in body style, but the Smart Pro Lite allows you to be able to utilize your device with Ilco Transponder Keys as well as Ilco Look-Alike Remotes! Be sure to register for MYKEYS Pro at [mykeyspro.com](http://mykeyspro.com) before downloading the application.

## Key Benefits

- WiFi and Bluetooth connectivity
- Operates without the need to purchase Tokens, Software, or Standard UTP
- Free updates for one year
- Free to receive any new vehicle application updates
- Intuitive touch screen user interface
- Affordable update fee
- Fast programming
- Compatible with MyKeysPro (MKP)
- 2-year warranty
- Compatible with the ADC245 Smart Aerial Plus+

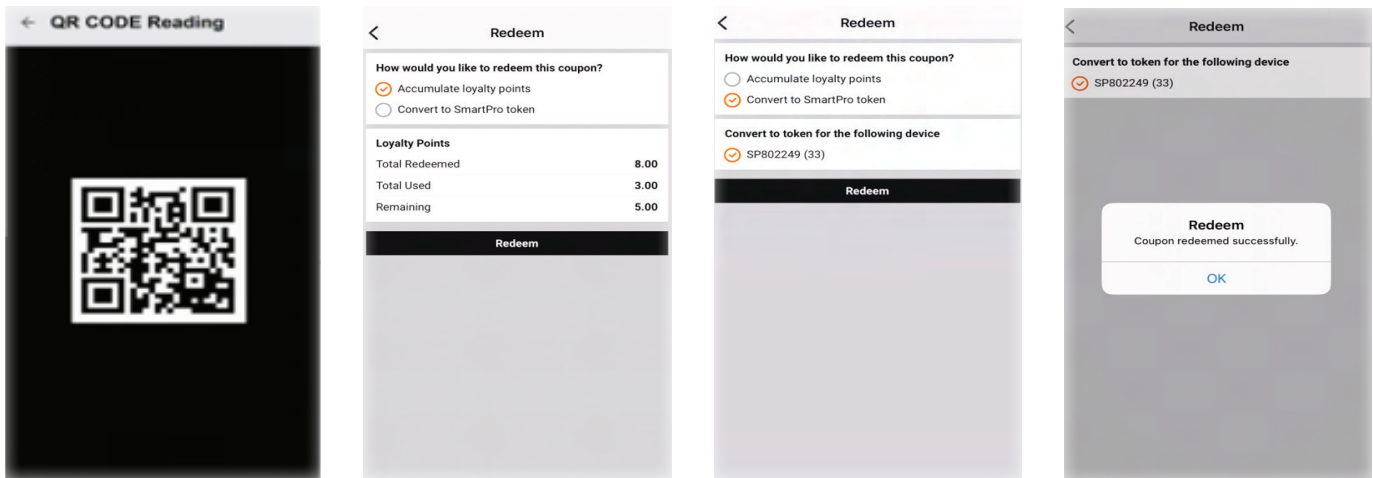

## Starter Kit Includes:

- OBD Master Cable
- Main Cable and Charger
- USB Operating Manual
- Hard Body Carry Case

## How it Works

1. Users scan the QR Code on the packaging for the appropriate Ilco transponder key or Look-Alike Remote using MYKEYS Pro (MKP).
2. Inside MKP the customer will be given the option to convert QR Code into Smart Pro Lite token or convert QR Code for Ilco Loyalty Program. Once customer selects to convert into Smart Pro Lite token the token will be added to the bank of the Smart Pro Lite serial number.

3. The tokens can then be loaded into the Smart Pro Lite by going to the My Smart Pro icon on the device and adding tokens from the bank. This can also be done by connecting the Smart Pro Lite to a PC with supplied USB cable and then connecting to AD Loader to download tokens.
4. Once the tokens are loaded into the Smart Pro Lite, you can begin using your device by selecting the make, model, and year of your desired vehicle.

## Extensive Functionality

Program transponder keys, proximity fobs, and remotes for cars including PIN reading for various manufacturers using the latest technology.

The user interface is icon-driven and provides access to extensive functions like ECU identification, read & clear fault codes, (manufacturer dependent), previously programmed vehicles, and much more.

Supports multiple languages; simply select and set.

## Guided Updating Procedure

Simple and easy updating via WiFi with step-by-step procedures to guide the user. The home screen "update" button will display the available software update (s).

The Smart Pro Lite can also be connected to a PC with the supplied USB cable to download any new software or security patches. The time for updating has been streamlined to provide faster functionality.

<b>Power</b>	120v main plug for charging
<b>Weight</b>	2.9kg / 6.4 lbs
<b>Dimensions</b>	12.7" W x 2.6" D x 8" H (322mm x 203mm x 68mm)
<b>Battery</b>	Lithium-ion Battery, 2 hrs standalone use - chargeable via vehicle or main connection
<b>Memory</b>	2GB RAM
<b>Storage</b>	32GB SSD
<b>Processor</b>	Quad core processor
<b>User Interface</b>	Graphic driven touch screen
