

VOLKSWAGEN DOOR LOCKS

General information as follows:

1. Key blank references are for the profile only, using one of the more well-known blank numbers. This list does not include all variations of different head shapes, lengths, or transponders, the main object is to identify which key profile enters the lock.
2. We supply coded or uncoded according to what is available to us from the manufacturer. All coded cylinders can be disassembled for rekeying without destroying a face cap, using the tumblers and keying kits listed. Coded locks may be substituted for locks listed as uncoded. Uncoded locks will never be substituted for locks listed as uncoded.
3. Identify which tumblers and keying kits to use according to the separate chart organized by the key blank numbers.
4. Remember – Driver side is LEFT, Passenger side is RIGHT

Model	Years	Key	Part description	Part no.	Notes
411, 412	1971-74	X9	Uncoded plug	D-31-306	Use tumbler series P-31-111/114
Atlas (mechanical ignition lock)	2018-19	HU66	Replacement locks available from Volkswagen dealers only		
Atlas (push button start)	2018-19	HU162	Replacement locks available from Volkswagen dealers only
