SMART Aerial + Cloud Cloning Solution

The Smart Aerial+ from Advanced Diagnostics simplifies and speeds the key cloning process.

Cloning calculations are made using Advanced Diagnostics proprietary servers to guarantee reliability, ensuring that the latest routines are always available and time-consuming software updates are avoided.

Smart Aerial+ works hand in hand with the MYKEYS Pro app to guide the user through the entire cloning process, providing all the necessary information needed to deliver a perfect duplicate key.

CLONING PROCESS

- 1** Smart Aerial+ reads original key data
- 2** Data sent to cloud for calculation
- 3** Cloning data sent back to Smart Aerial+
- 4** Smart Aerial+ clones the transponder to create a new key
