The TDB500 Clone Wizard is new simple cloning device from The Diagnostic Box.

This simple machine clones vehicle transponder keys using a clever colour coded transponder, making this the most easiest and simple to use cloning tool in the world.

The TDB500 Clone Wizard has 2 modes of operation :

EASY MODE offers simple cloning using our simple colour cloning system, with 5 easy to use colour transponders.

EXPERT MODE offers more in depth transponder cloning, transponder precoding, transponder resetting, transponder preparation to name a few features.

The TDB500 Clone Wizard has an internal rechargeable battery making it both portable and convenient to use, especially when sniffing vehicle key data for ID46 type keys.

The Clone Wizard features a full colour LCD touch screen display, removable tray for cloning transponders and a USB connection for battery charging and PC updates.

MAIN FEATURES :

TOUCH SCREEN LCD DISPLAY
REMOVABLE TRANSPONDER CLONING TRAY
