THE PERFECT FIT GUIDE

It's important to make sure your lovely new sofa will be able to fit into your new home. This guide, put together by comfy experts, will help you measure up your space to ensure our delivery team will be able to get through the door and into place.

1. YOUR SOFA MEASUREMENTS

Jet down the dimensions of your chosen sofa in the spaces above. These sizes can be found in the dimensions on our website.

a) Total sofa width

b) Total sofa height

c) Total sofa depth

2. GETTING UP THE STAIRS

If your sofa needs to make it up some stairs, measure the width of the staircase at the narrowest point. Also remember to take into account any hand rails or light fixtures.

p) Staircase width

*If you have a balcony and the sofa needs to be lifted over it, check that the distance between the balcony and the ceiling is greater than the height of the sofa. Once you’ve got to the top of the stairs, make sure there is enough room on the landing for your delivery guys to manoeuvre yourself into the right room.

3. GOT A LIFT?

Does your building have a lift that you’ll need to use? If so, measure the open door height and width, and the depth of the lift to make sure it will fit; check that the dimensions are greater than the width, height and depth of your sofa you’ll need.

Total lift width

Total lift height

Total lift depth

4. NAVIGATING HALLWAYS & DOORS

We need to make sure your sofa can get into the room that you’d like it to sit in. Measure the width of any areas that the sofa must pass through at their narrowest point, such as hallways and doors. Don’t forget the additional obstacles such as radiators, stairwells etc.

Hallway doorway width

Narrowest hallway width

5. READY TO ORDER?

If you’re ready to go and have made sure that your sofa will fit into your home then great! Head over to our website at www.ahf.co.uk or call us on 0800 254 9960 to place your order. Our team will also be on hand to answer any questions you may have.

Top Tip

The legs of most of our sofas are able to be removed for easier access and fitting into your home.
