

Sunny Health and Fitness Jumping Mat Installation Guide for No. 78 and No. 79 Trampolines

No. 78

No. 79

In this troubleshooting guide, we have demonstrated how to easily attach the jumping mat to the Sunny Health and Fitness No. 78 Rebounder Exercise Trampoline and No. 79 Hexagon Rebounder Exercise Trampoline with Adjustable Handlebar.

In this guide, you will not need any additional tools to attach the jumping mat. For additional assistance, email support@sunnyhealthfitness.com.

No. 78 Troubleshooting	Pages 2 and 3
No. 79 Troubleshooting	Pages 4 and 5

Sunny Health and Fitness No. 78 Rebounder Exercise Trampoline

Step One: Place the jumping mat flat in the middle of the trampoline frame. Place the sunny logo upright, and have the security ropes face the ground (see **Figure 1**).

Figure 3

Sunny Health and Fitness No. 78 Rebounder Exercise Trampoline

Step Three: Now that the jumping mat has three secured points attached to the frame, loop the remaining 27 security ropes to the steel trampoline frame. Tug firmly on the ropes while looping to attach it to the connecting hook (see **Figure 4**).

Figure 4

Step Four: Once all 30 security ropes are attached to the steel frame, pull the long black straps at the end of the jumping mat, and attach them to the connecting hooks underneath the mat. Once the straps are attached, installation of the jumping mat is complete (see **Figure 5**).

Step Two: Next, create a triangle with the jumping mat by wrapping three of the security ropes around the steel rim (see Figure 2). To wrap the security rope, tug on the rope and loop it around the steel frame. When looped, attach the security rope to the adjoining hook (see **Figure 3**).

Sunny Health and Fitness No. 79 Hexagon Rebounder Exercise Trampoline with Adjustable Handlebar

Step Three: Now that the jumping mat has three secured points attached to the frame, loop the remaining 39 security ropes to the steel trampoline frame. Tug firmly on the ropes while looping to attach it to the connecting hook (see **Figure 4**).

Figure 4

Step Four: Once all 42 security ropes are attached to the steel frame, pull the long black straps at the end of the jumping mat, and attach them to the connecting hooks underneath the mat. Once the straps are attached, installation of the jumping mat is complete (see **Figure 5**).
