
Enhancing Your Spa Guest Experience
with a Himalayan Salt Wall

From The Primal Sea ...

Approximately 250 million years ago, energy from the sun dried up the Primal Sea, where scientists believe life originated. Compressed over millions of years by landmasses that formed on top, the minerals left behind transformed into pure crystal salt, protected deep within the Himalayan Mountains.

Today, Saltability and Touch America are pleased to bring you 100% pure Himalayan crystal salt, containing 84 naturally occurring minerals and salts to nourish the body and considered the purest and most beneficial salt ever discovered on earth.

Choose from our array of high quality products – featuring Himalayan salt carved out and crafted by hand – to enhance the spa experience for your guests.

We are committed to only sourcing Himalayan salt mined from the Himalayan Mountains in Pakistan through socially, environmentally responsible manufacturing.

- **100% pure pink Himalayan salt**
- **Certified organic**
- **Antimicrobial**
- **Antibacterial**

Enhancing the guest experience with a Himalayan Salt Wall ...

Saltability and Touch America can help enhance your spa guest's experience through the addition of a Himalayan salt wall. Featuring beautifully illuminated, hand-carved salt blocks, the wall will add aesthetic value to the space, but more importantly, it will boost guest health.

Generating Negative Ions to Enhance Health

In today's uber-connected world, computers, smartphones, microwaves and other electronics constantly emit positive ions — also known as "electric smog" — that can leave us feeling drained and down. Excessive positive ions can also come from bacteria, mold and allergens.

In comparison, the natural environment – such as nature's magnificent forests, beaches, and waterfalls – creates abundant negative ions. Pure Himalayan salt (derived from the Primal Sea) is filled with negative ions.

Gently heated, Himalayan salt serves as a natural ionizer, thanks to salt's hygroscopic properties. When heated, the Himalayan salt crystals attract moisture on the salt block surface, and as that moisture evaporates, negative ions are emitted.

The negatively charged ions from the heated Himalayan salt serve to purify the circulating air. Our bodies also reap numerous health benefits from the salt, including stress reduction, energy increases, and mood boosts at a biochemical level.

saltability™

Saltability offers quality Himalayan salt stone treatments and products for resort, day, medical and destination spas. Developed by spa industry veteran Ann Brown as a more environmentally friendly, healthier alternative to traditional stone massage, Saltability works closely with spa partners to train therapists on specific protocol for Saltability's Restore Himalayan Salt Stone Massage, Deep Tissue Himalayan Salt Stone Massage, and Himalayan Salt Stone Manicure and Pedicure, plus equip spas with Himalayan salt stone enhancements. Saltability features 100% pure pink Himalayan salt mined from the Himalayan Mountains in Pakistan through socially, environmentally responsible manufacturing.

For more than 30 years, TouchAmerica has been developing and manufacturing innovative spa and salon equipment solutions. Headquartered in North Carolina, this family-owned business has found success by conveying a quality product to customers and maintaining a quality environment appreciated by our long-standing employees. From humble beginnings and the development of our first product, a portable massage table, today we develop a full range of spa and salon equipment, custom furniture, cabinetry and merchandising solutions. Our wholly-owned subsidiary Touch International also custom designs and manufactures for some of the biggest names in the spa, hotel and beauty industry.

NEW Products from Saltability and Touch America

Atlas Flex-Block Salt Table

An easy-to-use and ultracomfortable system to deliver the healing properties of salt, our Himalayan Salt Flex-Block™ bed allows spa guests to lie directly on a solid surface of salt. The Atlas Salt Table can be used for massage and body treatments, or on its own for relaxation and rejuvenation. Unlike granular salt beds, the Atlas Salt Table is easily sanitized with an eco-cleaner before each treatment. *Learn more at saltability.com.*

Atlas Flex-Block Salt Lounge – Pre-selling now for March 2017 release

Cradled in healing comfort, spa guests experience the nourishing, replenishing benefits of Himalayan salt while relaxing on the heated, ultra-comfortable Atlas Flex-Block™ Salt Lounge. Client lays directly on our innovative flex-top surface – Himalayan salt tiles that cushion and give way with the body for a comfortable, cradling feel. The electronic lounge moves easily from upright to zero gravity position to provide such benefits as back and muscle pain relief and more. *Learn more at saltability.com.*

Request for Quotation

Please provide the following information so that we can provide a quote for your new Salt Wall:

- Floor plans, drawing or room layout information
- Length and height of each wall to be covered with pure Himalayan salt bricks
- Specify any electrical outlets, sprinklers, or other potential obstructions on the wall. Make sure to specify the dimensions of any doors, windows or trim work.
- Specify the type of room, such as dry sauna, treatment room, relaxation room
- Photos of the walls to be cover are helpful

Our Salt Wall Kits include:

- Acrylic backing pre-drilled for installation (screws supplied)
- All trim pieces
- LED lighting to completely and seamlessly backlight wall
- Non-toxic caulk
- Instructions for wall installation and CAD drawings for onsite installer

Upon acceptance of this request, Saltability and TouchAmerica will work with your distributor to ensure that we have pertinent information.
