SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

<u>INGREDIENTS</u>	<u>PERCENT</u>	<u>CAS NUMBER</u>	<u>OSHA PEL</u>	<u>ACGIH TLV</u>
Soft Water	85.5%	7732-18-5	N/A	N/A
Glycol Ether (EB)	<9.0%	111-76-2	25 PPM*	25 PPM*

STARPOWER's blend of additional proprietary ingredients contains no item that, at its given concentration is considered to be hazardous to health.

**Note: Glycol Ether (EB) was delisted in 2004 as a hazardous substance by the U.S. Environmental Protection Agency (EPA). These are the numeric values for pure EGBE. Pure Glycol Ether (EB) is used as the standard for most of the cautionary information contained herein. However, STARPOWER only has a <9% level of Glycol Ether (EB) prior to dilution. Dilution for use, of course, further decreases the level. Precautionary information in this MSDS is primarily associated with, and applicable for, pure Glycol Ether (EB). STARPOWER Super Cleaner/Degreaser™ does not have the occupational health risks associated with exposure to undiluted Glycol Ether (EB).*

SECTION 4: FIRST AID MEASURES

EYE CONTACT:

Flush eyes gently with water for 15 minutes or until material is gone. Seek medical attention if accompanied by pain or irritation.

SKIN CONTACT: Skin irritation is unlikely. If negative reaction occurs, rinse affected area with plenty of water. Seek medical attention if irritation persists.

INHALATION: Respiratory irritation is unlikely. If negative reaction occurs, remove to fresh air. Seek medical attention if irritation persists.

INGESTION: Rinse mouth with water; give several glasses of water. Never give anything by mouth to an unconscious person. Do not induce vomiting. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. Seek medical attention if stomach upset occurs.
