Types of Bridal Bouquet?

ROUND

The most well-known style, for both modern and traditional weddings. The best blooms to use are those with a bulbous shape, such as roses or anemones.

FREESTYLE

Freer than other bouquet styles. Include a wide assortment of flowers and greenery. Ideal for bohemian, rustic, or garden weddings

KOREAN

Clean, simple and minimalist. Small enough to be held in the hands and feature mostly flowers – as opposed to greenery and other foliage typically used in bridal bouquets.
