

ARTS & CRAFTS CABINET SYSTEM

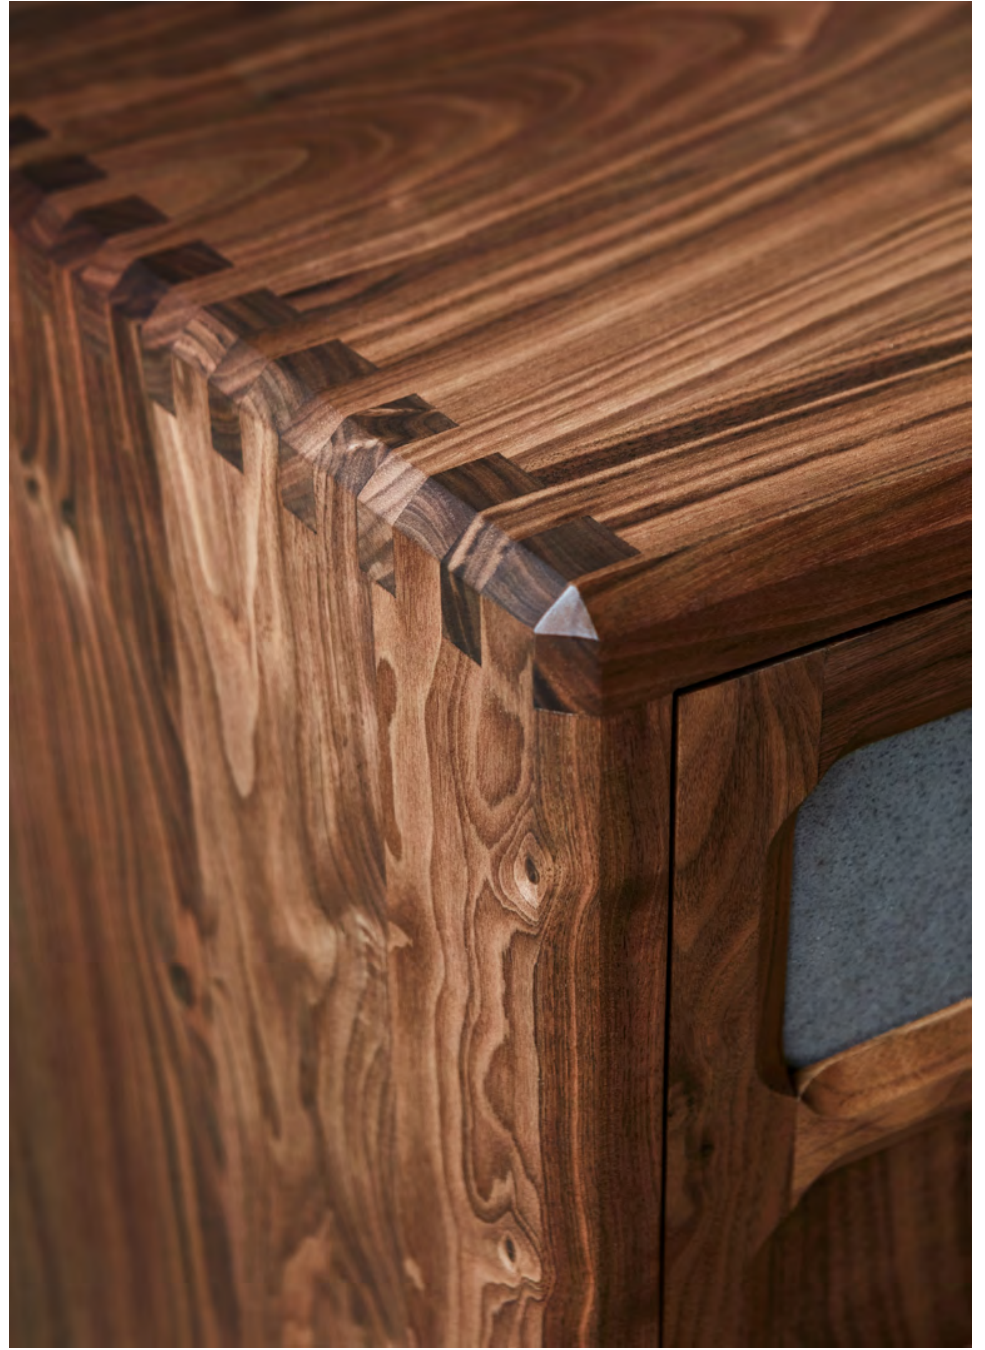

DE LA ESPADA ATELIER

Arts & Crafts cabinet system by De La Espada Atelier offers a variety of storage solutions including sideboards and tall cabinets in various sizes and configurations, as well as the option of a fully customised piece to suit unique spaces.

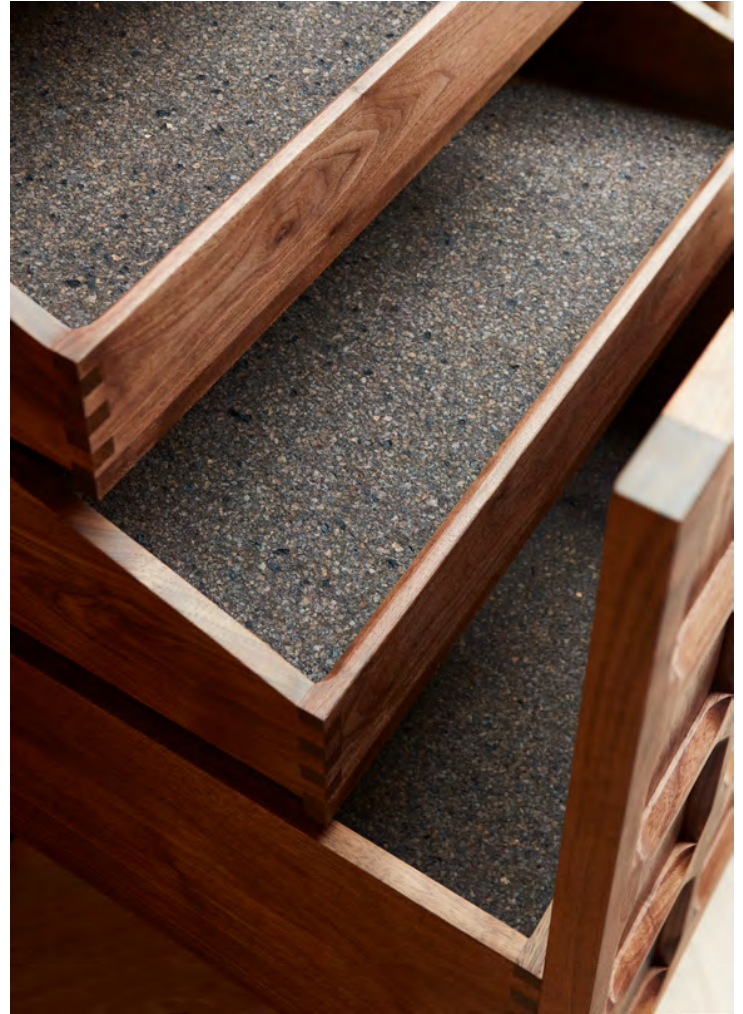

Featuring exquisite detailing and woodcraft,
the piece was inspired by the Arts and
Crafts movement, a design period that has
influenced the work of De La Espada for over
twenty years, and which the brand is now
exploring more deeply with their in-house
design studio, embracing its principles and
researching and applying historical detailing
in their unique design language.

The Arts & Crafts cabinet system fuses the skills of artists and craftspeople from various disciplines, incorporating not only woodwork, but ceramics, textiles, and textile art.

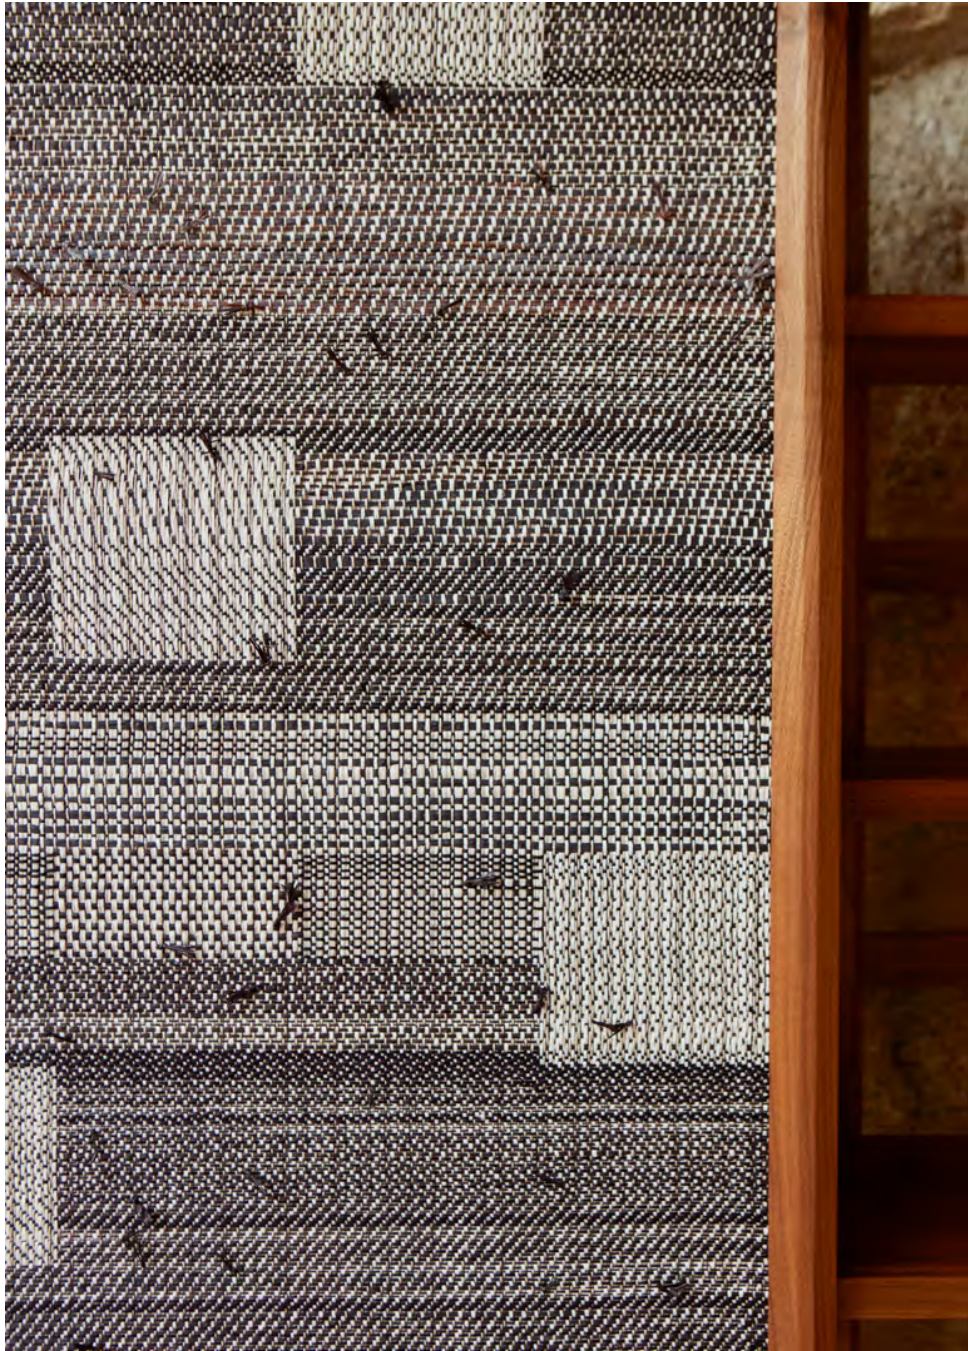

Arts & Crafts cabinet is exhibited at The Future Perfect New York as part of the Tulip Room exhibition from 8th May. It will be exhibited at Lisbon Design Week, 22 - 26 May 2024; and at 3daysofdesign in Copenhagen, 12 - 14 June 2024.
