ARTS & CRAFTS CABINET SYSTEM WORKSHEET
DE LA ESPADA ATELIER

Arts & Crafts cabinet system offers a variety of storage solutions including sideboards and tall cabinets in various sizes and configurations, as well as the option of a fully customised piece to suit unique spaces.

Featuring exquisite detailing and woodcraft, the piece was inspired by the Arts and Crafts movement, and fuses the skills of artists and craftsmen from various disciplines including woodworking, ceramics, textiles, and textile art.

DEFINING YOUR CONFIGURATION
The Arts & Crafts cabinet system is flexible, allowing for the creation of a sideboard in a choice of two heights and three widths, or a tall cabinet in a choice of three widths. Numerous material options allow for further personalisation. Select from our standard configurations on the following pages.

DOORS / DRAWERS
Both the tall sideboard and the sideboard section of the tall cabinet include an upper level of drawers that include removable organising trays. Below this level, and on the low sideboard, any combination of cupboard doors (with internal height-adjustable shelf behind) and/or deep box 'kitchen-style' drawers (with two inner drawers behind) can be specified.

TIMBER
Available in our full range of timbers and finishes.

PANEL OPTION
Tall cabinets include sliding panels. Choose from woven timber, limited edition Flores textile linen, or COM.

CABLE MANAGEMENT
The cabinets and sideboards come with cable management as standard. If you wish to exclude holes from the back panel; for example, if the cabinet will be placed in the centre of the room; then specify this on page 6.

CREATE A FULLY CUSTOMISED CABINET
If you require a fully customised cabinet to suit your space, please contact sales@delaespada.com to discuss possibilities.
