Enhance security and privacy

Future-proof, biometric technology

Passwordless solutions

Defense against phishing and MTM attacks

Protection from server credential breaches
Decrease IT management costs

The most cost-effective authentication method

Conserve your IT support resources

One key card for multiple uses

Includes physical access and payment processes
Streamline employee productivity

- Frictionless fingerprint access
- Seamless multi-factor authentication
- Biometric FIDO2 security keys and Azure AD
- Designed for all devices
Maximize your investment in Microsoft solutions

Choose your interface preferences

- USB-A
- USB-C
- FIDO U2F
- FIDO2
- Fingerprint Biometric
- OATH HOTCP
- NFC
- BLE
- NDEF (HOTP)
- Smart Card (GIDS)
- Smart Card (PIV)

Integrate with Microsoft technology

- Azure Active Directory
- Single sign-on (SSO) to cloud and on-premises resources
- Windows Hello for Business
- Microsoft Accounts
Why FEITIAN?

- **99.9% effective**
  Of attacks can be prevented with multi-factor authentication.
  Source: Microsoft

- **MISA recognized**
  FEITIAN is identified as a preferred partner in the Microsoft Intelligent Security Association (MISA).
  Source: MISA

- **FIDO Alliance member**
  FEITIAN is a board member of the FIDO Alliance, an association developing authentication standards across the globe.
