

Mobile Smart Card Authentication Products

About Feitian

FEITIAN is a trusted leader in the global market for multi-factor Authentication, personal identity, rights management, smart card and mobile smart card reader technology. Established in 1998, FEITIAN has developed as an essential component in the information architecture of private and public enterprise, government, and educational institutions throughout the world. FEITIAN is now known to worldwide countries as a name that stands for confidence, quality and performance. The fountainhead of FEITIAN is firmly rooted in a research and development department comprised of forward thinking experts accounting for more than half of FEITIAN's distinguished multi-national team.

Through the development of mobile phones and tablets a demand for convenience has risen, and Feitian has responded creating security products offering convenience to mobile users. Feitian's iOS Smart Card Reader was first developed, the popular iR301U, later expanding to the world's first iOS Smart Card Reader with lightning connector, and smart card reader case for iPad/mini. During this period Feitian also launched their smart card blue tooth reader, the bR301, and audio jack MSR & Contactless reader, the aR520. Feitian's Mobile Smart Card Readers meet all strict standards for Mobile Payments.

iR301U

The Feitian Standard iOS Smart Card Reader.

Compliant with EMV Level 1

Provide secondary development library MFI specification
