

## Whitepeaks Zirconia Colouring Course

### Course Lead Peter Harling

13 & 14th June 2019

Matthew Boulton College, Birmingham, B4 7PS

This hands on course will focus on pre-sintering zirconia colouring techniques using Whitepeaks high translucent Zirconia and colouring liquids.

The delegate will build on their knowledge and hands on skills including manually carving Zirconia, and how to personalise each case using Whitepeaks colouring liquids. Delegates will also learn how important the sintering process is, on achieving the desired aesthetics.

On completion of the course the delegate will be awarded 9 hours verifiable CPD.

#### Course aims:

To further enhance the dental technicians skills and knowledge in creating full monolithic functional high aesthetic restorations using Whitepeaks Zirconia and colouring liquids.

#### CPD objectives and anticipated learning outcomes.

1. To understand the theory and have practical knowledge on using Whitepeaks pre-sinter infiltration liquids.
2. To understand how to select the most appropriate Zirconia, for each individual case, regarding translucency, MPa.
3. To confidently handle and manipulate green state Zirconium.

#### Course instruction

Peter began his career 28 years ago at a private laboratory in Warrington, he qualified from Liverpool in 1995. He started his own business in 2001 and in 2006 invested in a full CAD/CAM system.

Peter regularly attends courses throughout Europe and the US. He is a full member of the Dental Technicians Guild and was awarded GC's highest Gold Standard Award in 2015. He has lectured numerous times across the UK.
