

Ting a Ling a Jingle

Sing ting a ling a jingle and hold me so tight
Sing ting a ling a jingle and kiss me goodnight
Icicles on the window and snow on the ground
Sing ting a ling a jingle till Santa comes round

On the night before Christmas when Santa is near
All the children to dreamland will soon disappear
But there's one little darling who won't close an eye
Till you call for the sandman with this lullaby

Sing ting a ling a jingle and hold me so tight
Sing ting a ling a jingle and kiss me goodnight
Icicles on the window and snow on the ground
Sing ting a ling a jingle till Santa comes round

You can rock them to sleep every night of the year
Till the night before Christmas when Yuletide is here
They can fill you with laughter and then make you cry
But your tears turn to gladness with this lullaby

Sing ting a ling a jingle and hold me so tight
Sing ting a ling a jingle and kiss me goodnight
Icicles on the window and snow on the ground
Sing ting a ling a jingle till Santa comes round

It's the same the world over in all baby land
For a smile is a language we all understand
You can soothe them or scold them your patience they'll try
But they turn into angels with this lullaby

Sing ting a ling a jingle and hold me so tight
Sing ting a ling a jingle and kiss me goodnight
Icicles on the window and snow on the ground
Sing ting a ling a jingle till Santa comes round
