TOOLS NEEDED

10mm Wrench
Phillips Screwdriver
Ratchet
7/16" Socket

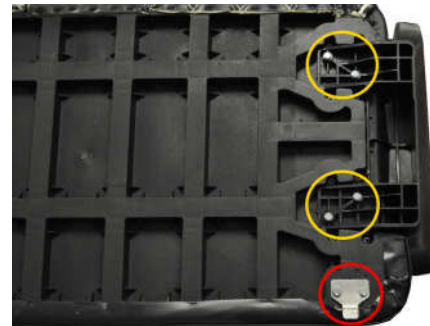

Professional installation is recommended. If you choose not to have this product installed by a professional, we highly recommend that you exercise caution, care and patience when installing this product as it involves drilling holes into your cart's body.

STEP 1

Remove factory front seat. Remove and retain hip restraints. Remove hinges and hardware.

STEP 2

If your cart is 2012 and up, install your retained hip restraints and hinges using the provided hardware then proceed to Step 6.

STEP 3

If your cart is a 2004-2011, use the provided hardware to attach clamps to the seat.

NOTE: Each clamp is labeled A-D, attach them to the corresponding locations.

STEP 4

Install hip restraint using provided hardware.

STEP 5

Install seat hinges using provided hardware.

STEP 6

Install the lean back spacer on the base of the bracket. The longer spacer is for seat kits and the smaller one is to mount to the sweater basket. Install the M6 bolt into the hexagonal shaped hole at the top of the bracket.

NOTE: Make sure the opening in the spacer is facing down.

STEP 7

Mount the brackets to the back of your seat cushion. Do not over tighten.

STEP 8

A) If mounting to seat kit use wedge provided in your 250/300 or Titan 1000 seat kit.

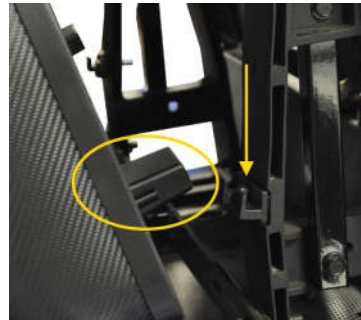

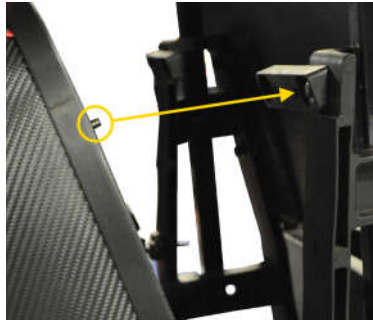

B) If mounting to sweater basket proceed to next step

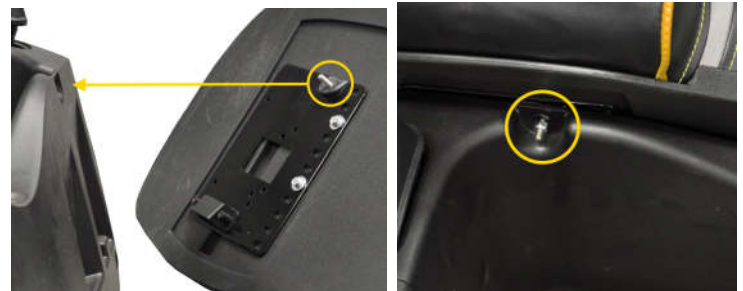

STEP 9

Set opening of spacer on lower mounting hook. Align upper stud with wedge and secure. Do not over tighten.

STEP 10

Place spacer opening on sweater basket. Align stud with hole in sweater basket.

Installation Complete
