*Model available in 2/4/6 burners

Centerline™ by Hobart HMM20 Standard **Heavy-Duty mixer**

A great solution for kitchens that sometimes mix heavy doughs, have limited batch use, depend on a mixer for multiple applications and operate it for less than four hours a day.

1/2 horsepower motor 📶

The power needed for all the jobs you do.

All-gear transmission 📶

Superior reliability and performance when compared to belts, which can slip and break.

GearSafe[™] system 8

Protects the mixer from damage if speeds are changed while it's running.

Three mixing speeds all

The mixing speeds that most kitchens need.

Clean, contemporary design

with duo-tone finish .

Smooth edges and minimal areas where debris can accumulate.

Last time remind 🖔

Automatically recalls the last mixing time used, making it simpler to mix multiple batches of the same item.

Simply designed to be the best solution for many kitchens.

The Centerline HMM20 mixer may be right for many of your customers — such as independent restaurants and other operations needing reliable, cost-effective food preparation equipment. Consider bundling it with an EDGE slicer to deliver a total solution.

MODEL	DESCRIPTION
HMM20	20-quart mixer

Meat Slicers

Our meat slicers are composed of high-quality European grade material; composed of anodized aluminum alloy, and boosts a powerful motor that meets quality European standard.

Omcan's manual, belt-driven slicers feature our most compact designs and are ideal for small operations where space is limited. They are excellent for slicing vegetables and processed meats.

Economy Models:

Are an economical solution that does not compromise on quality. Easy to disassemble and clean.
