

WRIST MEASUREMENT

Cut out the paper ruler following the outer edges of the shape and make a small cut in the "CUT HERE" area. Wrap the ruler around your wrist and insert the tab into the hole. Pull the tab until the meter sticks to your wrist and get the size of your bracelet.

Print and check the meter

Measuring your wrist is the best way to establish the correct size of every type of bracelet. For the fit of our bracelets, we suggest you refer to the model and the type of fit you want. Print the meter on a sheet of A4 paper, in 100% real size. Take a common plastic ruler and measure the sample on the bottom. If the result is exactly 2 cm, the meter is reliable.

- XS 121 - 134 mm
- S 134 - 146 mm
- M 146 - 159 mm
- L 159 - 172 mm
- XL 172 - 188 mm
