Bluetooth Device Connection 1

Keyboard Charging

When the power is too low, the white status button of one of connections in use will flicker until shut down. Please connect the power supply to charge in time to ensure that the keyboard has enough battery power to meet normal work. If the keyboard power is too low, there will be some delays, freezes and other phenomena in typing, which will affect normal use.

(Power indicator turns red while charging then turns to green after 2-3 hours fully charge.)
