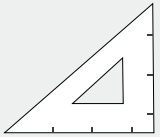
Tool:Tool Glue

Foreword

Note: Standard products do not contain tool glue, please purchase separately

①Tweezers: for small clips materia

② Scissors: used for cutting



③Ruler: used to measure material size and identif-ication material number

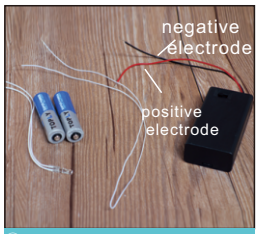
④White latex: used for bonding materials, dry slowly, easy to modify

⑤Alcohol / U glue: mainly used for the bonding of small objects, dry faster easy to stick

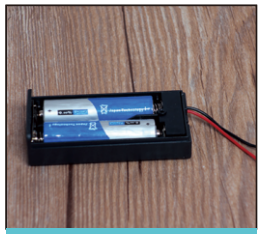
⑥Brush: Mainly used for glue application, the brush can sweep the glue evenly

⑦Utility Knife: Mainly used to cut the hole position of the sticker (such as window hole position, door hole position,)

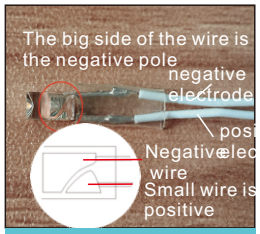
Battery , extension cord mounting method



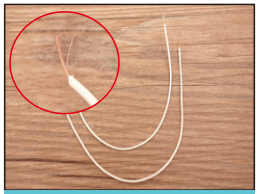
①Remove the battery box, LED lights, extension cords, tools: self-adhesive cloth, two batteries (battery-owned)



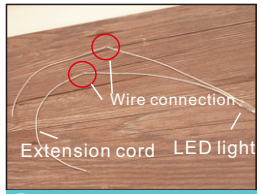
② Put the battery into the battery compartment, pay attention to distinguish between positive and negative



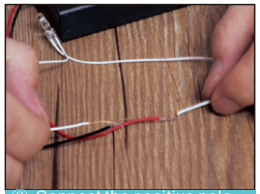
③LED light positive and negative



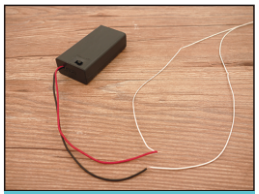
④Scrape the edge rubber on both sides of the cut wire to expose the wire about 0.5-1cm



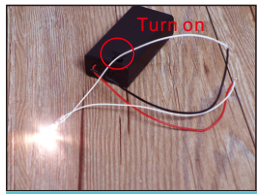
⑤ Connect the extension cable to the LED light wire separately (without the positive and negative electrodes, the wire is wound together)



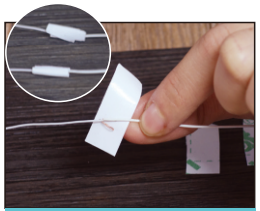
⑥ Connect the positive pole of the led lamp with the red line connecting the negative pole of the battery box and the black line (Connect the corresponding positive and negative poles)



⑦Battery box and LED bulb wire connection completed



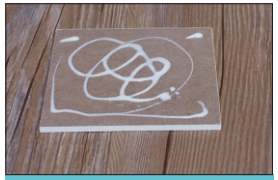
⑧Open the battery compartment switch and test



⑨Finally, attach all the wire connections to the sticker to prevent short circuit

Paper paste method

1.Remove the bottom plate and paper accessories Tools: white latex, ruler, brush

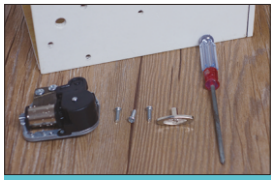


2.As shown apply white latex on the bottom plate

3.Apply white latex evenly with a brush

4.Align the bottom plate and press the paper. Adjust pos-ition before drying out

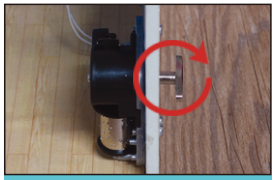
Music · installation metho



①Take out the music movement, 3 screws, 1 spring, screwdriver

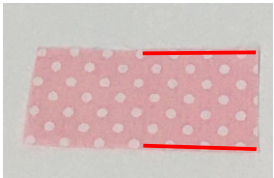
②Place the music movement in the position of the manual and screw on the screw

③Tighten the 3 screws and the spring; the music movement is installed



④Rotating the spring, the music movement can emit beautiful melodies

Pillow · U glue bonding method



② Cut the appropriate size as shown in the red line is the position where the glue is applied

3.Glue the edges of the fabri c with glue (leave a small cotton plug)

5.Glue the small openings left with glue

4.Put a small amount of cotton from the small mouth that is left (Cotton can be replaced with shredded paper)

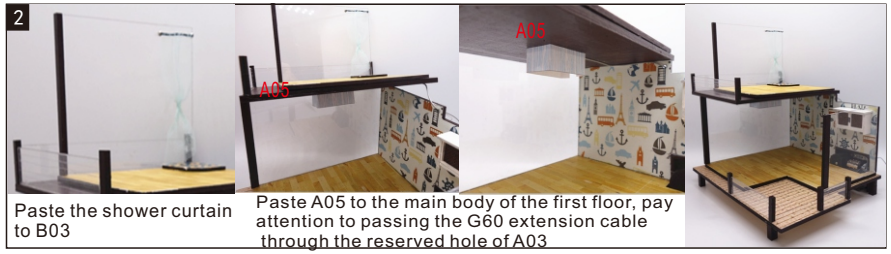
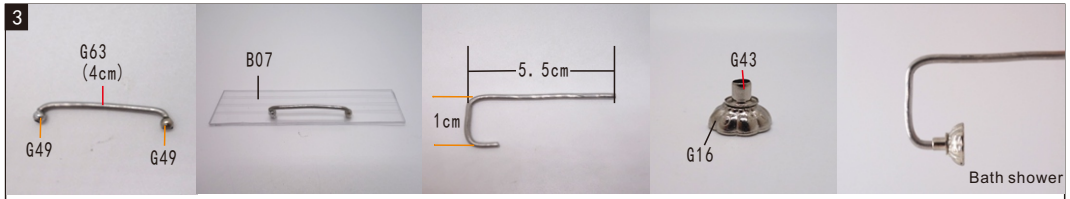
2



Paste the shower curtain to B03

Paste A05 to the main body of the first floor, pay attention to passing the G60 extension cable through the reserved hole of A03

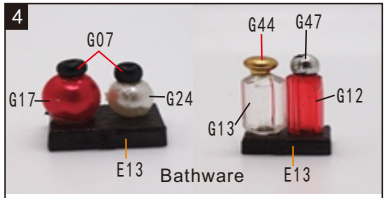
3



Cut out 4cm from G63, fold the two ends and paste with G47, B07 as shown

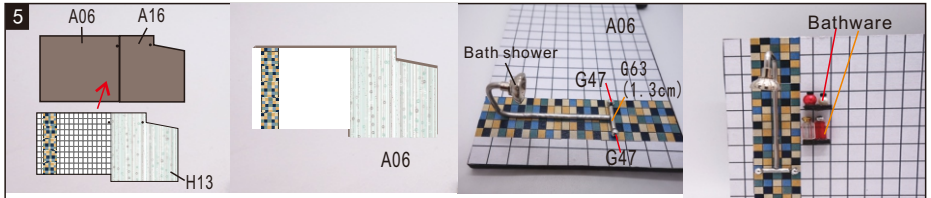
Cut out 8cm from G63, folded and pasted with G43, G16

4

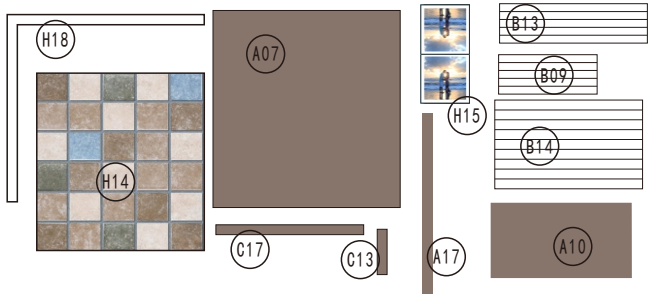


Paste the above material as shown

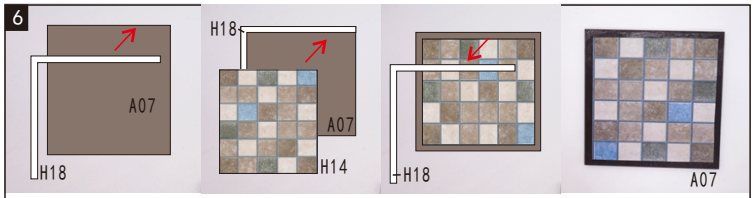
5



Paste H13, A06, A16, then paste the parts and materials as shown

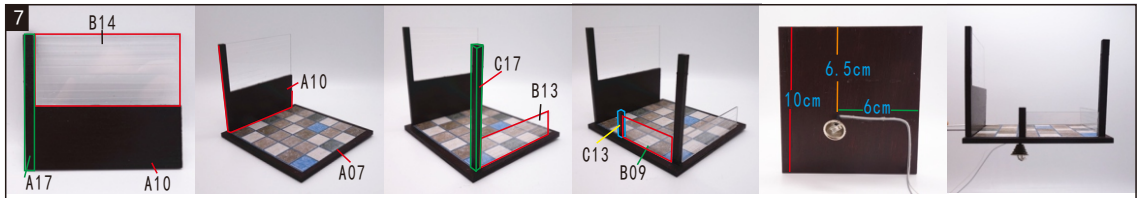


6



Place H18 and A07 side by side, remove H14 and paste next to H18, then remove H18

7

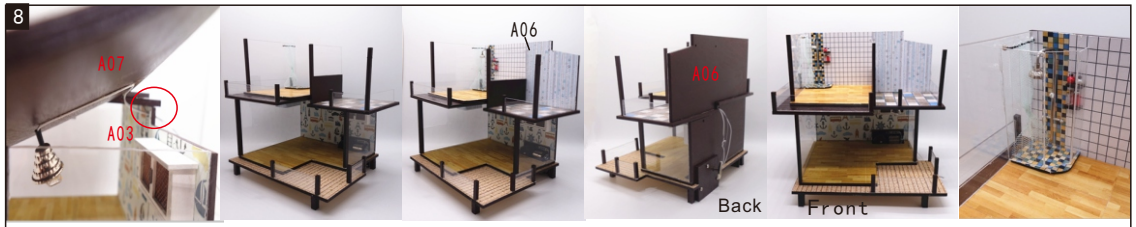


Remove A10, A17 and B14 to paste

Paste A07, A10, B09, 013, C17, C13 as shown

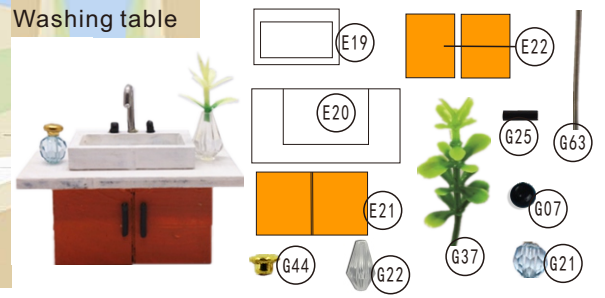
Take out the lamp 2 and paste as shown

8

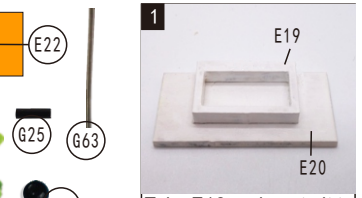


Pass the extension cable of the lamp 2 through the reserved hole of A03, take out the pasted A06 and paste it as shown.

Washing table

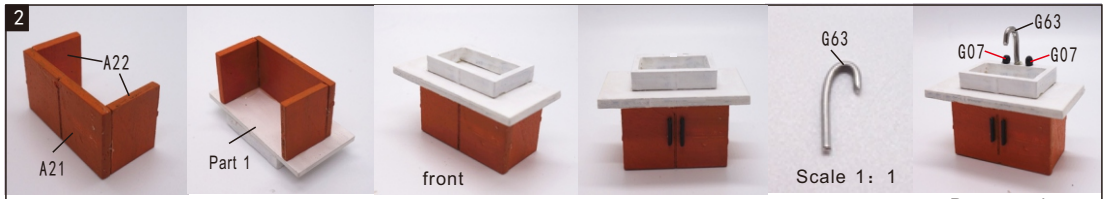


1



Take E19 and paste it to the scribe position of E20, part 1.

2



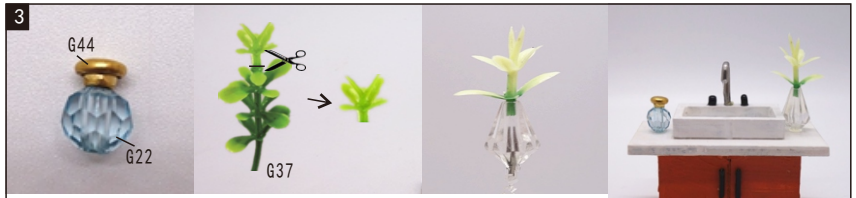
Take out E21, E22, part 1, paste as shown.

Take out the G26 paste

Take out G63 and fold it as shown

Paste as shown

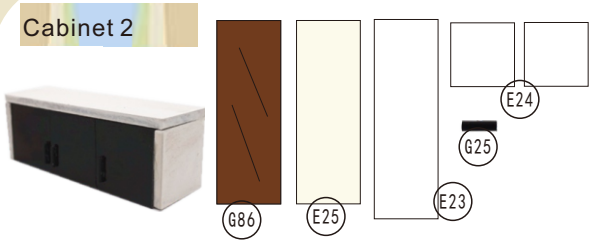
3

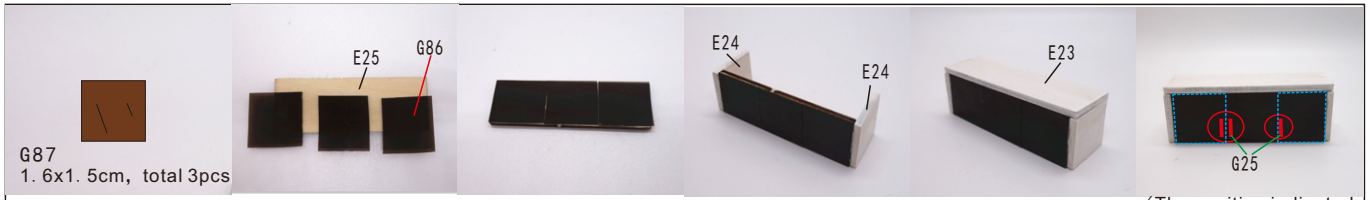


Take G44, G21 and paste as shown

Cut out the top section from G37 and insert it in G23, as shown

Cabinet 2

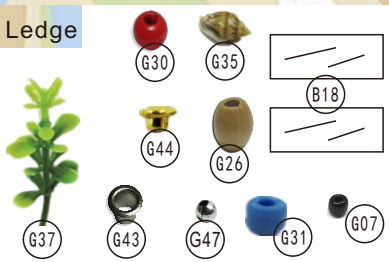


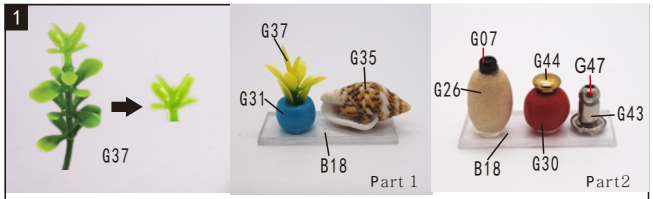


Take out G86 and cut out 1.6x1.5cm, a total of 3 sheets, then paste E25 side by side, and then paste E23, E24, G25 as shown

(The position indicated by the red line is where the G25 is)

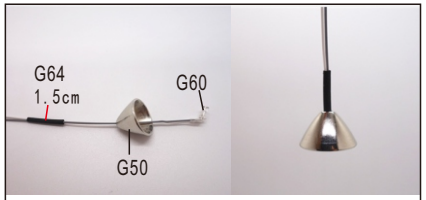
Ledge





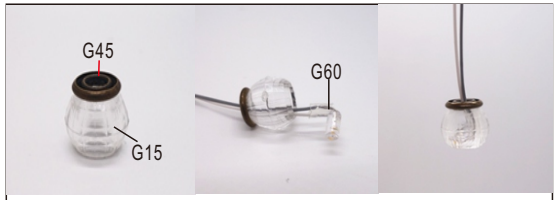
Cut out a section from the top of the G37 single stick, as shown, paste it with G31, and then paste it with other materials.

Lamp 3

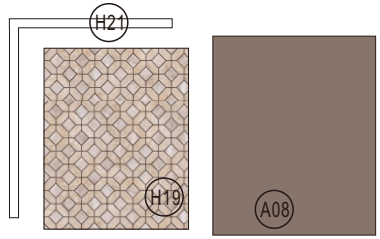


Cut out 1.5cm in G64, use G60 to cross G50, G64 (Fold like" 7-" more beautiful)

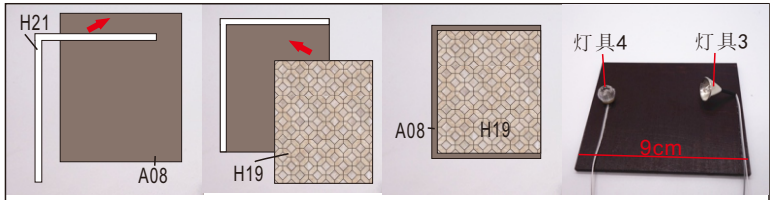
Lamp 4



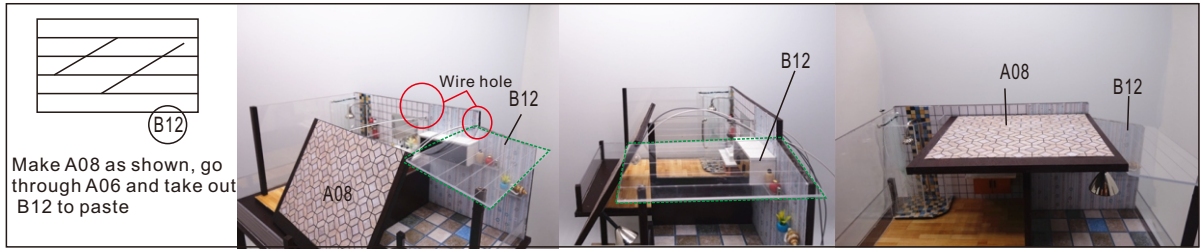
Use G60 to go through G15, G45 (fold the lamp into a 7-shape, the lamp is more beautiful)



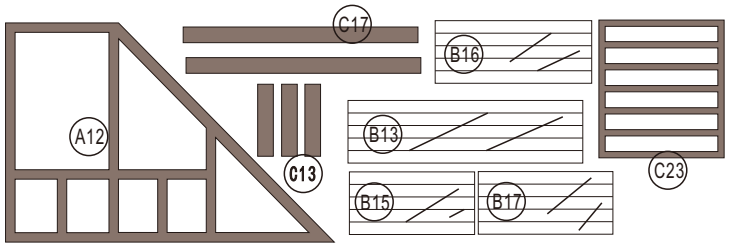
Take out H21, H19, A08

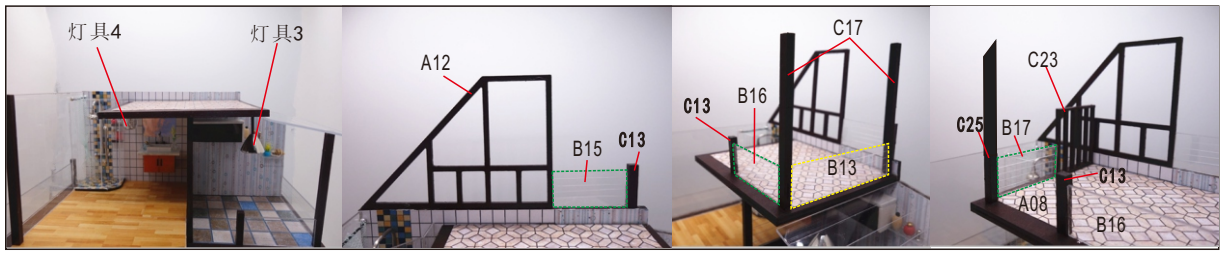


H21 and A08 overlap (note that they are not pasted), then paste H19 next to H21 as shown , and finally reverse to the back to paste the lamp.

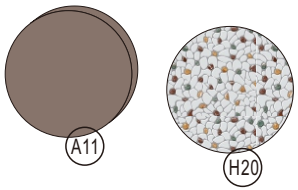


Make A08 as shown, go through A06 and take out B12 to paste



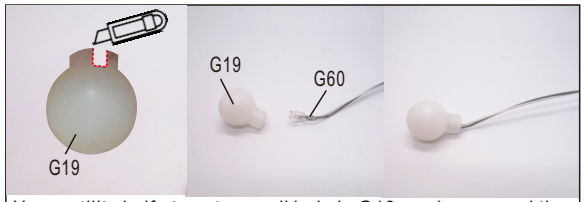


Third floor stage

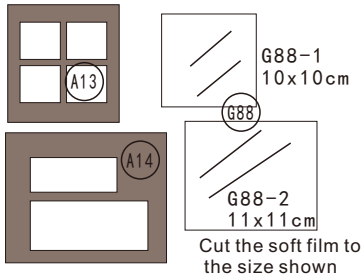


Take out both A11 and H20 and paste, then paste as shown

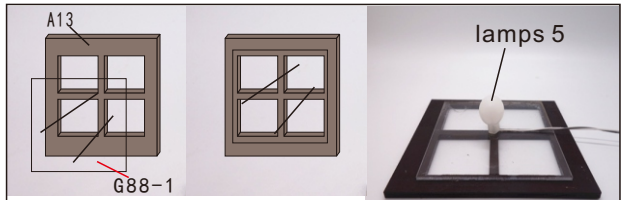
Furniture-lamps 5



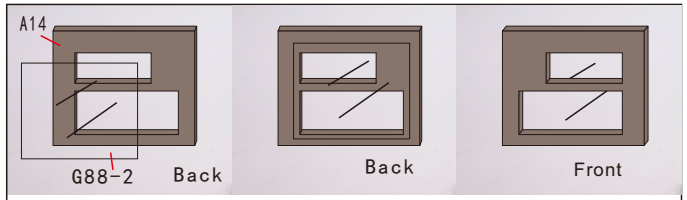
Use a utility knife to cut a small hole in G19 as shown , and then put G60



Cut the soft film to the size shown

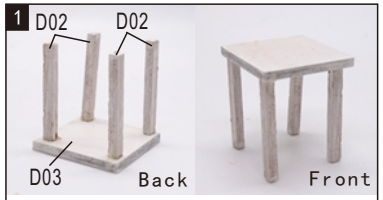


Paste G88-1 and A13, then paste the lamp 5 to the center position, as shown

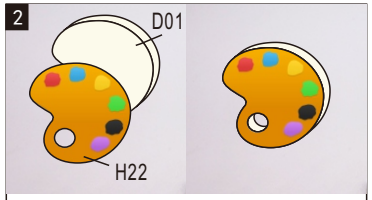


Paste G88-2 and A14 as shown , pay attention to the front and back

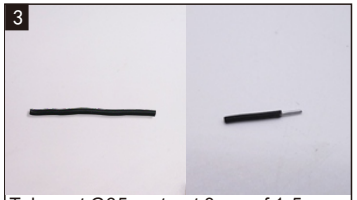
Painting table



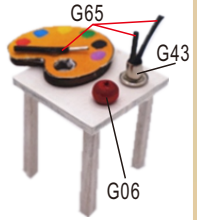
Take out D02, D03 paste as shown



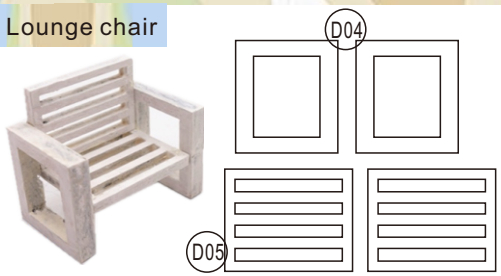
Take out D01 and paste H22 as shown

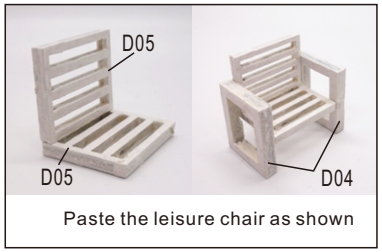


Take out G65, cut out 3pcs of 1.5cm, one of which is removed as shown



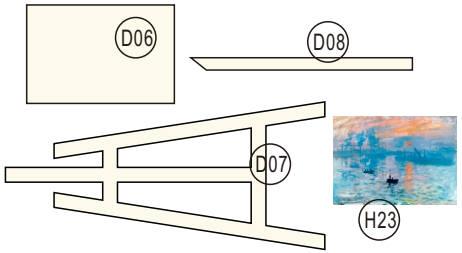
Lounge chair





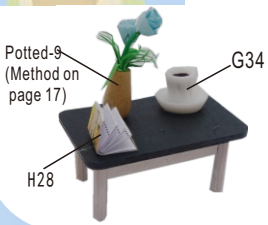
Paste the leisure chair as shown

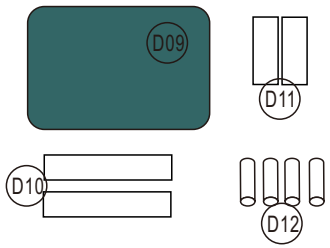
Easel

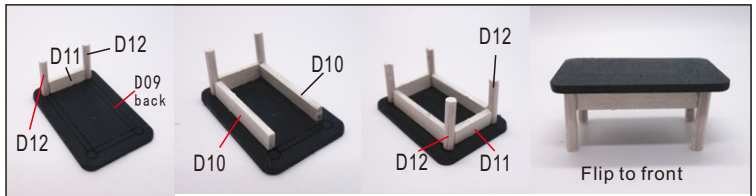


Take out D07, D08 paste as shown

Square table



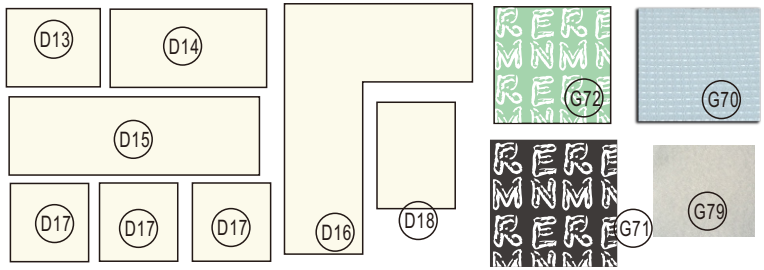




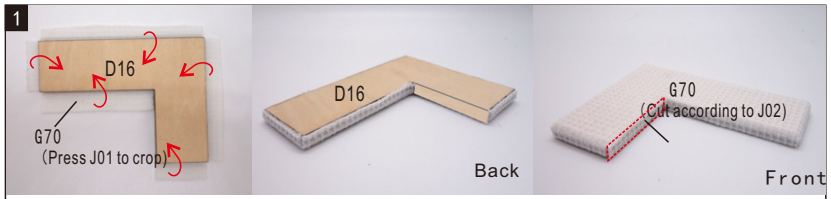
Take out D10, D11, D12, refer to the drawing part on the back of D09, paste as shown

Take out D06, H20 paste as shown

Sofa



1



Cut out D70 according to J01, then wrap D16 as shown, then press D02 with D70 to cut out and paste.

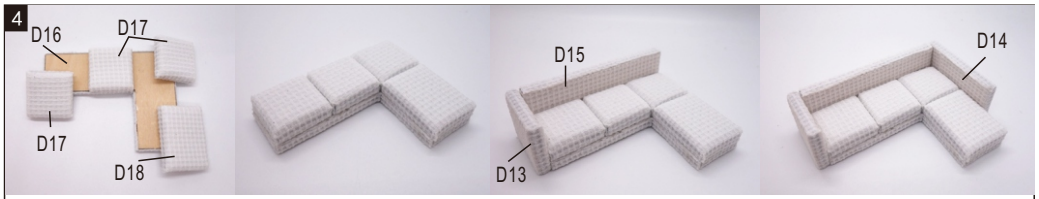
2

Cut 6 pcs G79 according to J03 and 3 pcs G70 according to J04. As shown, G79 and D17 are superimposed and pasted. Finally, 3 pcs are wrapped with G70.
Cut out G79 according to J05 for 2 sheets, G70 according to J06 for 1 sheets, as shown , G79 and D18 are pasted, and finally wrapped with G70 for 1

3

Cut out G70 according to J07, wrap D13 with G70, Cut out G70 according to J08, wrap D14 with G70,
Cut out G70 according to J09, wrap D15 with G70,

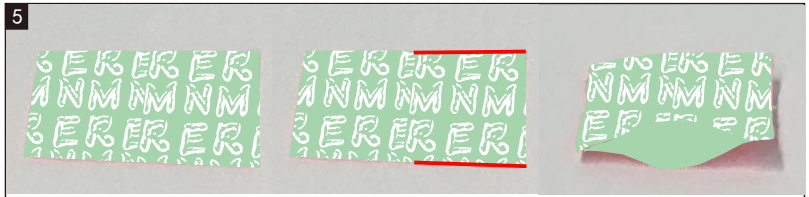
4



Paste the completed D13, D13, D15, D16, D17, D18 as shown

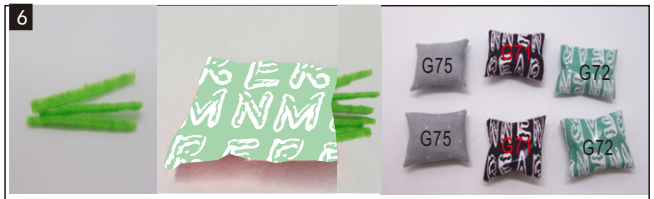
The pillow is recommended to be made at the end of the hut

5



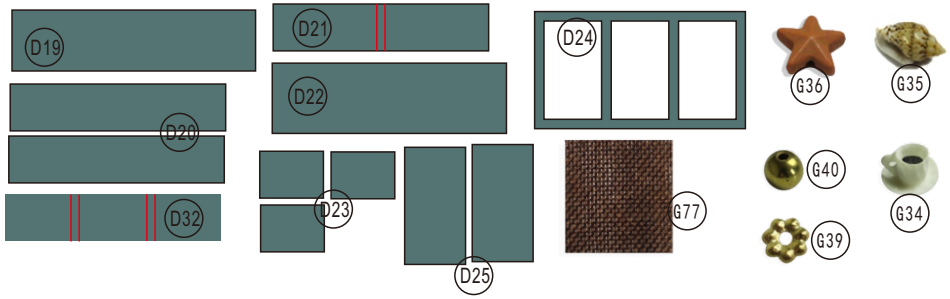
Cut out 2.5x5cm, then fold in half as shown in the red line to indicate the glue bonding position, use glue to glue the fabric edge, leaving a small mouth

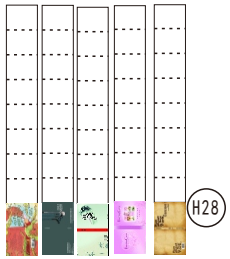
6



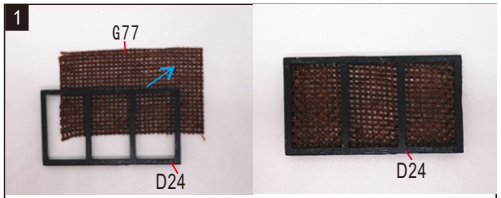
Cut the excess and useless fabric into cloth strips (you can also tear the napkins into strips), then insert the appropriate amount of cloth from the small mouth, and finally glue the small mouth to complete the pillow.

Bookcase



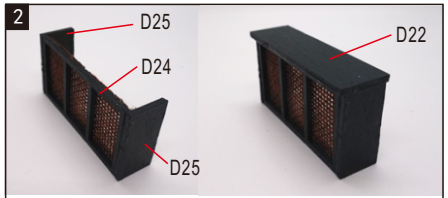


1



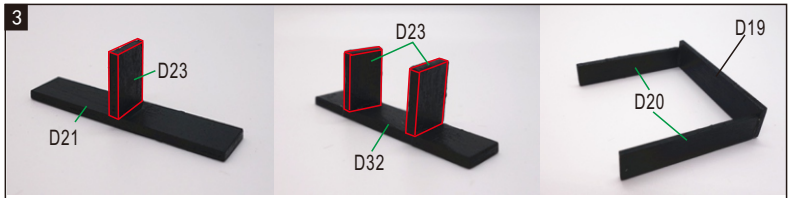
Take out D24, G77 coincides and pastes as shown

2



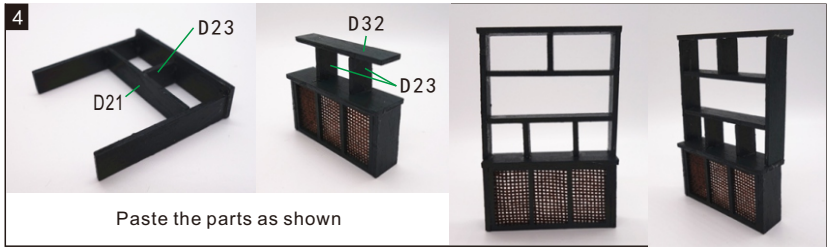
Take out D25 and paste D22

3



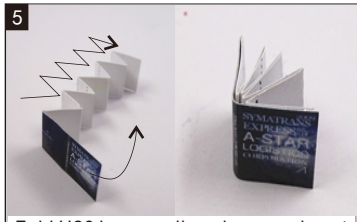
Take out D23, D21, D32, D23 and paste according to the position of underline, D20 and D19 paste as shown

4



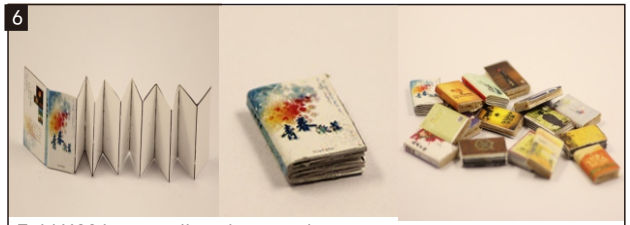
Paste the parts as shown

5

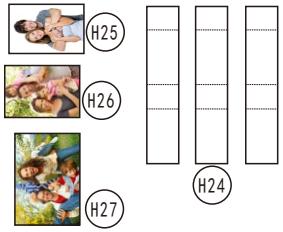


Fold H28 in accordion shape and paste

6



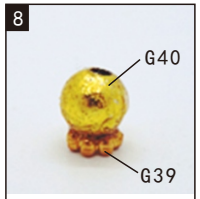
Fold H28 in accordion shape and paste



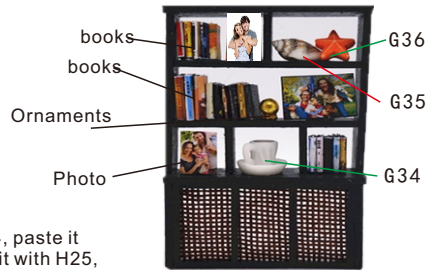
7

Fold the dotted line of H24, paste it into a triangle, and paste it with H25, H26, H27

8

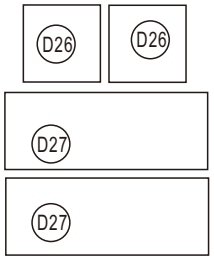


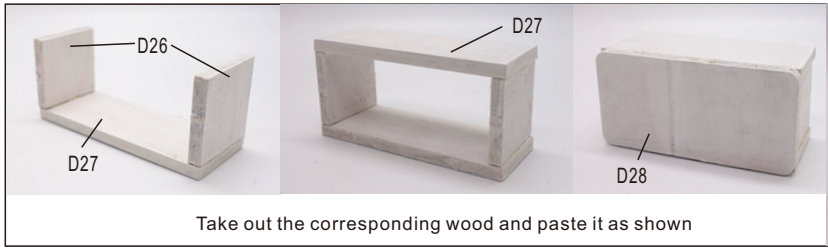
Fold the dotted line of H24, paste it into a triangle, and paste it with H25, H26, H27



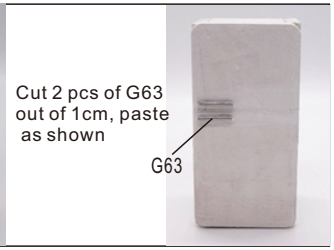
Refrigerator

Potted-7
Method on page 16



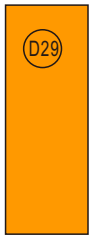


Take out the corresponding wood and paste it as shown

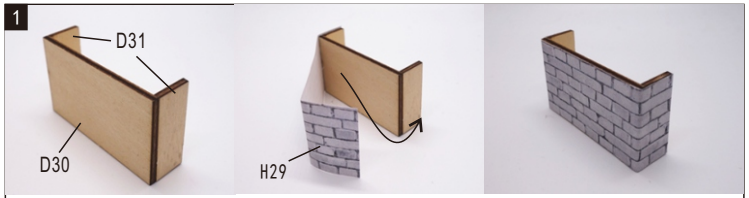


Cut 2 pcs of G63 out of 1cm, paste as shown

High table

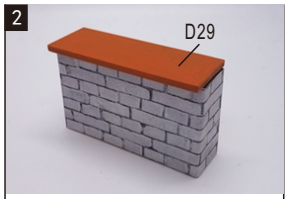


1



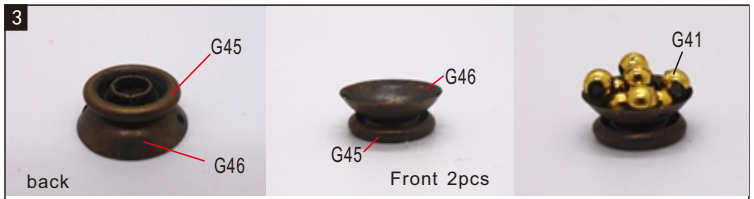
Remove the corresponding materials and paste as shown

2



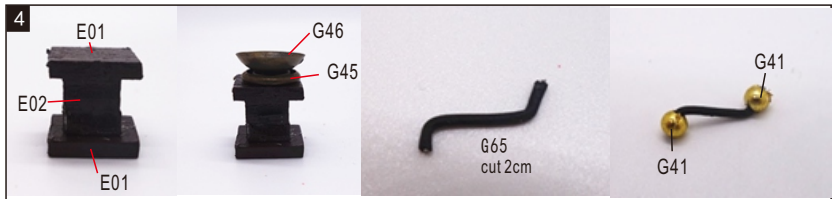
Remove the corresponding materials and paste as shown

3



Remove the corresponding materials and paste as shown

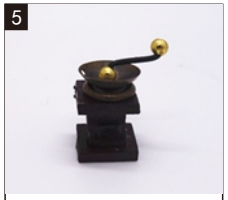
4



Remove the corresponding materials and paste as shown

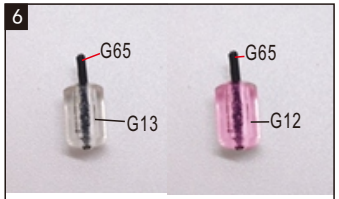
Cut out 2cm from G65 and fold it as shown, paste it

5



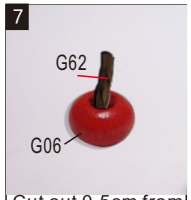
Finished parts

6



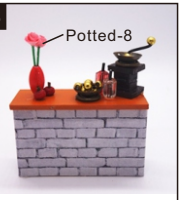
Cut out 1cm from G65, a total of 2 pcs, paste as shown

7



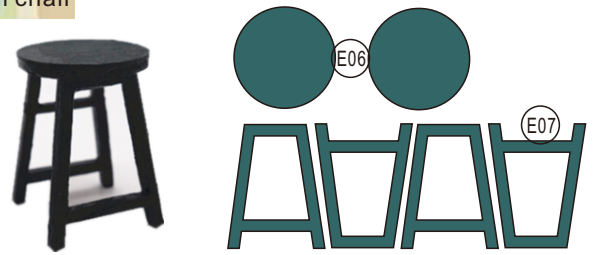
Cut out 0.5cm from G62 and paste with G06

8



Potted-8, method on page 16

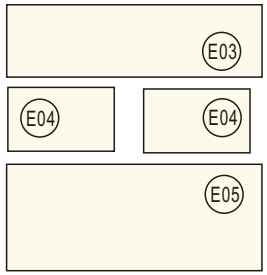
High chair

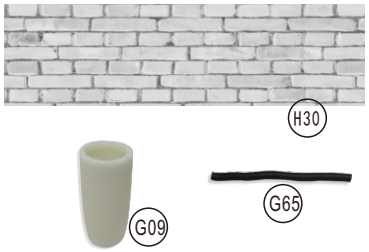


1

Remove the material and paste

Cabinet 2

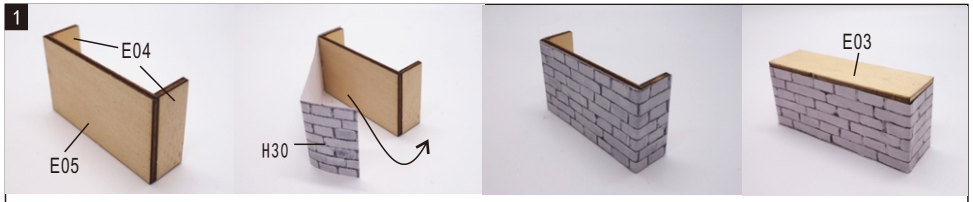




2

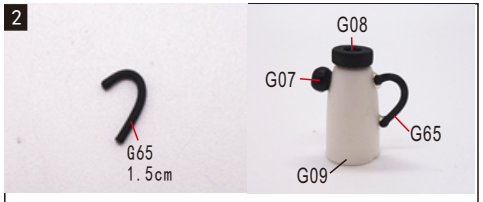
Take out the material and paste, 2pcs

1



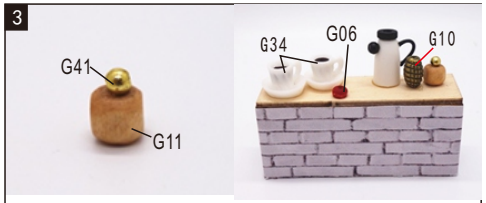
Remove the corresponding materials and paste as shown

2



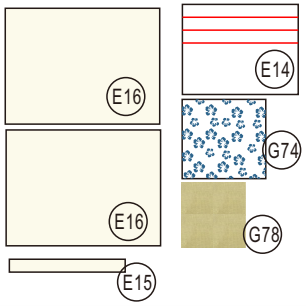
Cut out 1.5cm from G65, fold and paste as shown

3

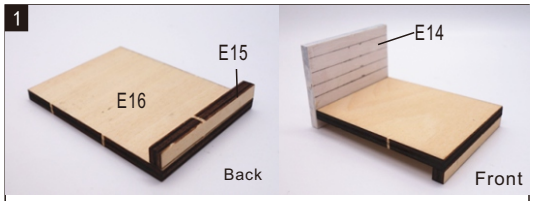


Remove the corresponding materials and paste as shown

Bed



1



Remove the corresponding materials and paste as shown

2

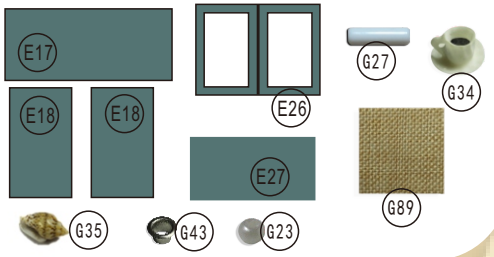
Take out G78 and wrap E16

3

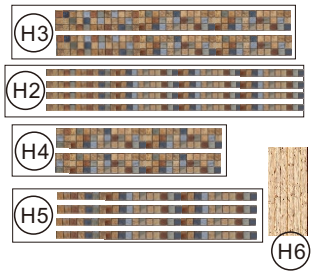
Fold G74 into a sheet and lay it on the bed surface

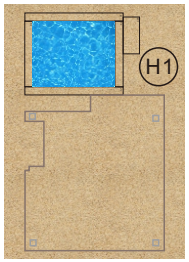
Cabinet 3

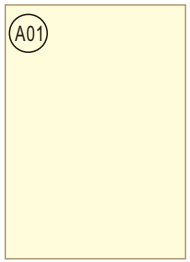
Potted-7 Method on page 16

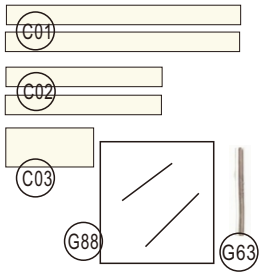


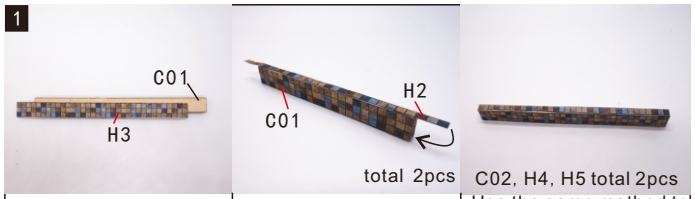
Swimming pool







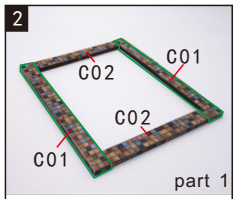




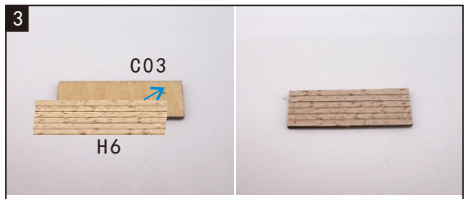
Take out both C01 and H3 and paste on both sides

Remove H2 and paste it around C01,total 2pcs

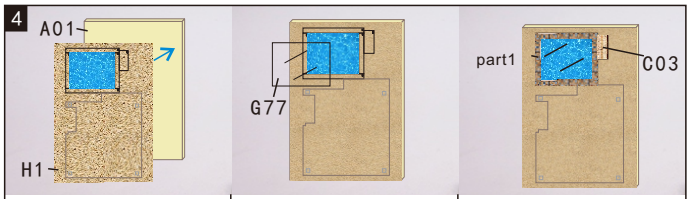
Use the same method to paste C02, H4, H5,total 2pcs



Paste the pasted C01 and C02 as part 1 as shown.



Take out C03 and paste H6 as shown.



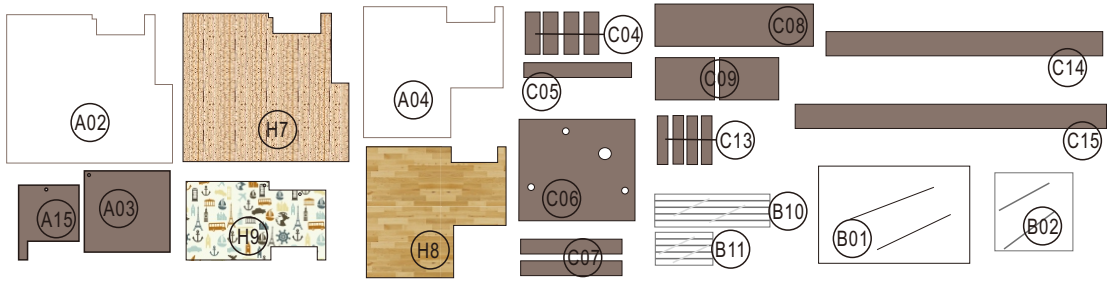
Take out A01 and paste H1 as shown.

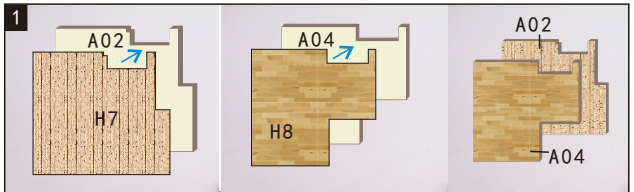
Take G77and cut 9x11cm and paste it as shown

Paste C03 to the specified location.

Take out G63, cut out 8cm, fold it as shown (scale 1:1), and paste it to the designated position.

First floor

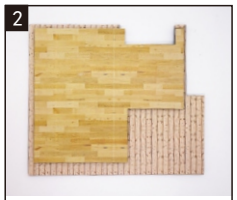




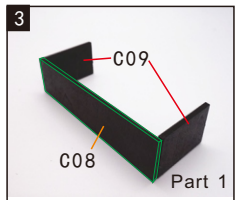
Take out A02, paste H7 as shown

Take out A04, H8 paste as shown

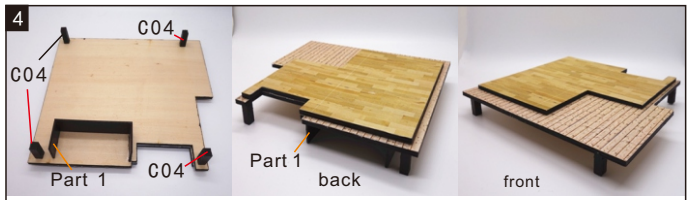
Paste A04 to the reserved position of A02



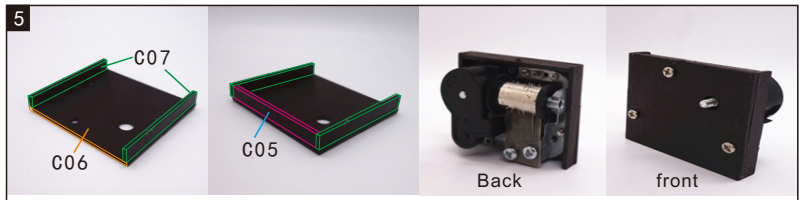
Paste A04 to the reserved position of A02



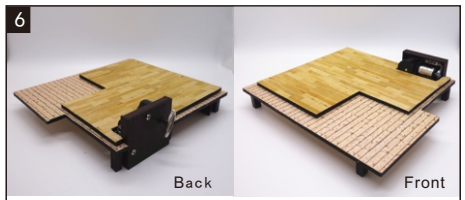
Take out C08, C09 paste as shown



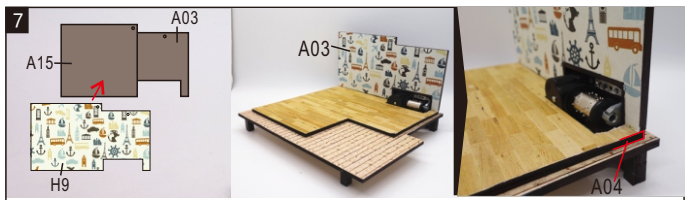
Turn the pasted A02 to the back, take out C13, part 1, paste as shown



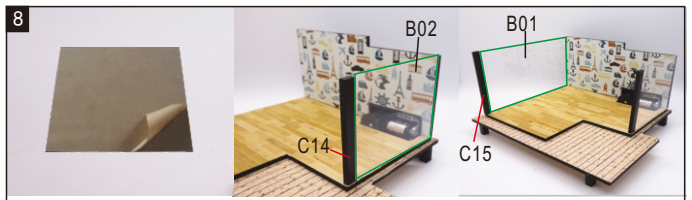
Take C05, C06, C07, paste as shown, and the music movement (the movement needs to separately buy. If there is no, you can skip this step , it will not affect)



Put the music movement in the reserved position



Take H9 and paste it to A03 and A15, paste it with A04 as shown

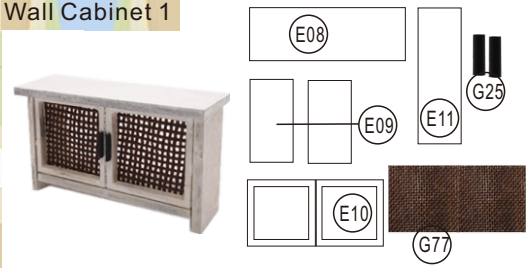


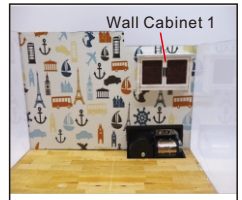
Take out B01, B02 and tear off the yellow protective paper, paste with C14, C15 as shown

9

Take out B10, B11 and tear off the yellow protective paper, paste it with C13 as shown, take out H10 and fold it in half, paste it to B01, pay attention to the distance indicated by the green line

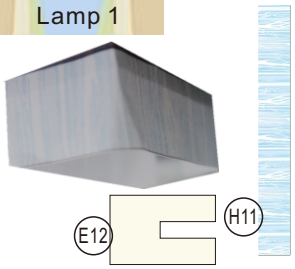
Wall Cabinet 1

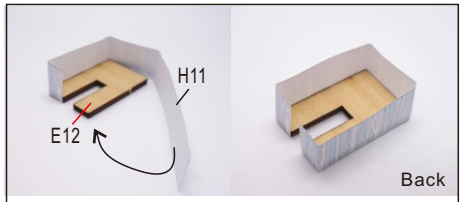




Paste to A03.

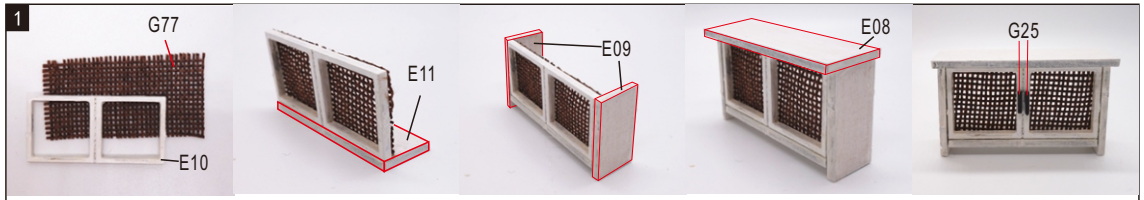
Lamp 1





Paste H11 around E12 in a circle

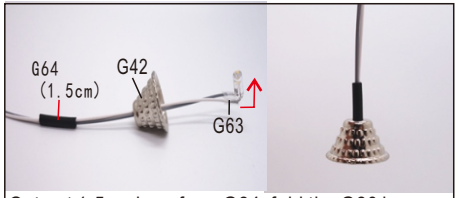
1



Take out E10, G77 and paste

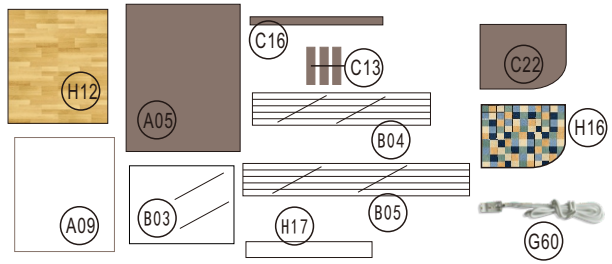
Remove excess G83, then paste with E08, E09, E11, G25 as shown.

Lamp 2

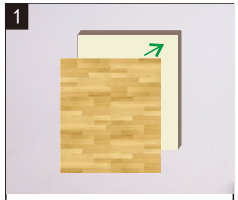


Cut out 1.5cm long from G64, fold the G60 lamp beads, and then pass through G42, G64 in order

Second floor



1



Take out H12 and paste A09 as shown.

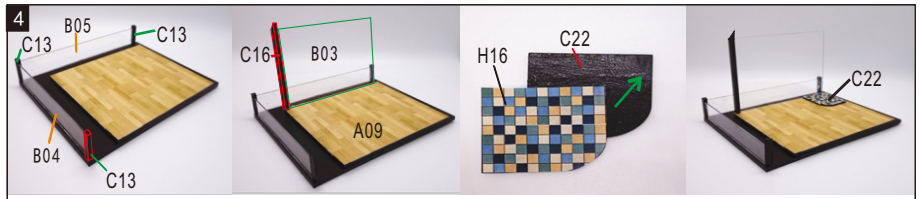
2

Finished A09

3

Place H17 on the position of A05 as shown , take care not to paste and fix, take out A05 and paste H09 to A09 to A05 and then remove H17

4



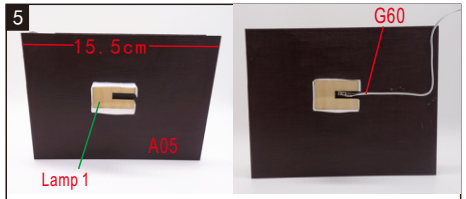
Take out C13, B04, B05O and paste to A05

Take out C16 and paste B03 to A09

Take out H16, C22 paste

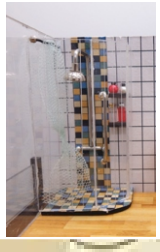
Paste C22 to the designated location of A09

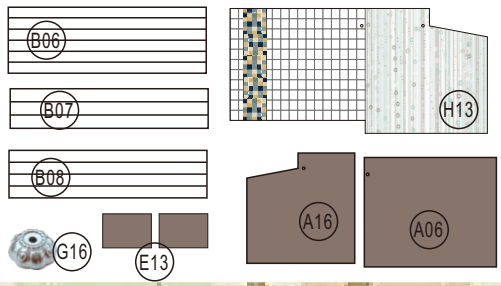
5



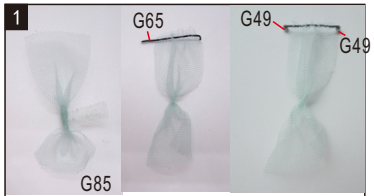
Turn A05 to the back, take out the furniture-lamp 1 and paste it to the center of A05, paste it with G60

Shower room

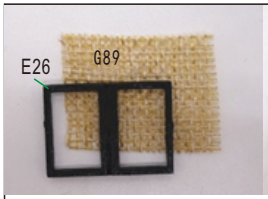


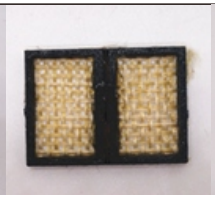


1

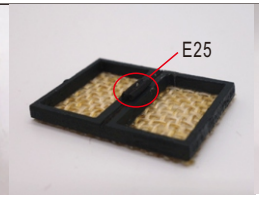


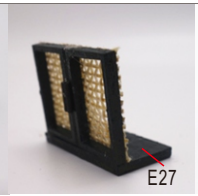
Cut out 3x6cm, 5x1cm from G85, bundle it and then fold it from G65 (4cm) in accordion shape, and paste it with G49

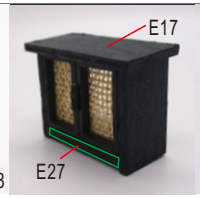




Paste and paste G89 and E26, as shown



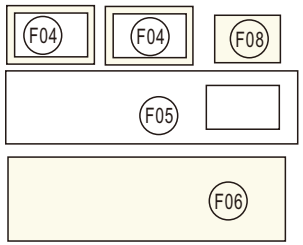


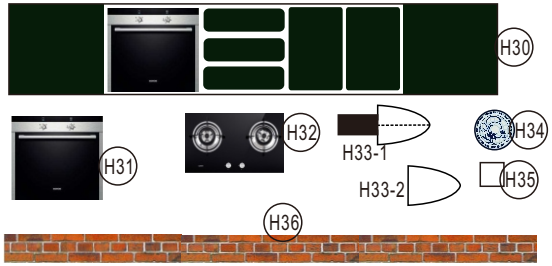


Remove the corresponding materials and paste as shown

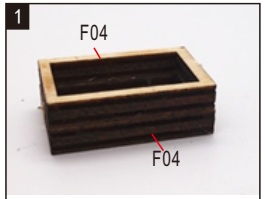
Potted-7
method on page 16

Kitchen cabinet



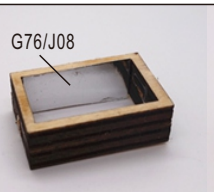


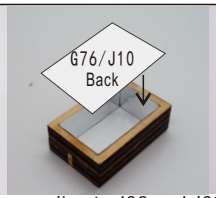
1



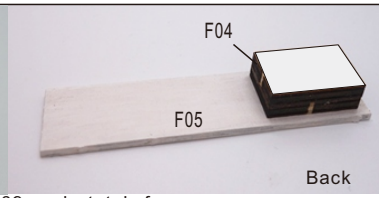
Paste and paste F04

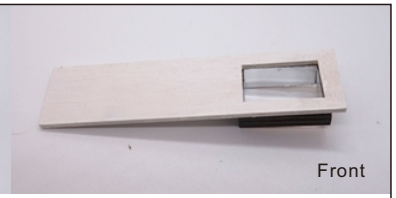
2





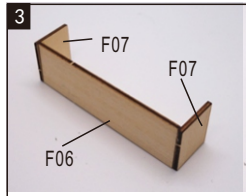
Take out G76, and cut out two pieces respectively according to J08 and J09, and a total of one piece of J10, of which J08 and J09 are pasted on the inner circle of F04 as shown , and the back of J10 is pasted

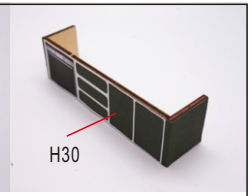




Remove the corresponding materials and paste as shown.

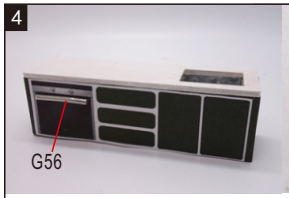
3



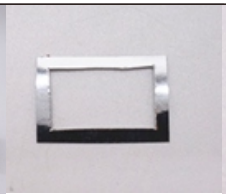


Remove the corresponding materials and paste as shown

4

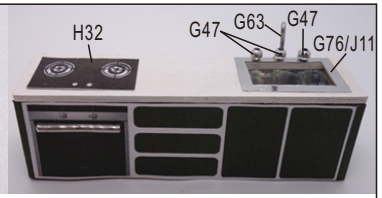


Cut out 2cm in G56 and paste as shown



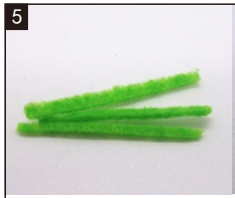
Cut out G78 as J11

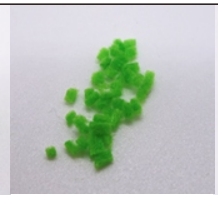
Cut out G63 by 2cm, folded as shown



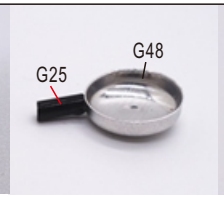
Remove the corresponding materials and paste as shown

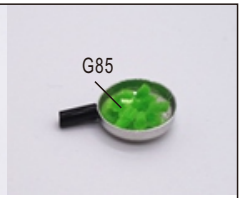
5





Take out G85 and cut it into pellets as shown





Remove the corresponding materials and paste as shown.

6
