

DIY mini house kits – A Splendid Family

L905 Instruction manual

NOTICE OF ASSEMBLE

Tips for assembling

1. Pictures shown on the package may be slightly different from the actual product.
2. All the materials are taken in the operation step, put the remaining materials back into the original pocket until the installation is completed. (Avoid material loss during installation)
3. The dimensions indicated in the step diagram are "cm".
4. If there have template paper material, please cut the material according to the template to avoid mistakes..
5. According to the part rule example at the bottom of this page, refer to the part on the part number drawing, find the material object and compare with the material list, confirm and install. (Wooden parts only)
6. Glue should not be applied too much, so as not to dry longer, overflow will affect the effect of the finished product.
7. Part shapes may differ from the photographs depending on the production batch

Testing on LED function

Be sure to test the LED lights before making the lighting, note that the LED white wire to the negative, gray wire to the positive reference to the following figure operation test.

How to assemble the battery holder

Example of parts rule:

A01: The parts are directly in the box.; B01: parts in bag B; C01: part in bag C and so on. (Note: display the printing paper A08-01 in the step: the printing paper is placed directly in the box, part number is A08-01)

Installation of dust proof cover (For updated version, the parts need to be purchased separately)

details of miniature kit

Name	Material package
