

# EMBROIDERY & SUBLIMATED BADGE

*What's the difference?*

## EMBROIDERED LOGO

---

Embroidery will have the logo stitched into the fabric of the beanie, with the best results coming from logos that avoid intricate details. This is our most popular branding method.

## SUBLIMATED BADGE LOGO

---

Sublimated badges are logos that are printed onto a badge and then sewn onto the beanie. This branding method is the best option for logos that are more complicated or have gradient patterns.
