24. WHITE

STRAP COLOUR

CHOOSE BRANDING TYPE

The final step is to choose your branding type. Provide your logo and select from either embroidery (recommended) or a sublimated badge for the logo decorations.

Embroidered Logo

Embroidery will have the logo stitched into the front of the trucker hat, with the best results coming from logos that avoid intricate details. This is our most popular branding method.

Sublimated Badge Logo

Sublimated badges are logos that are printed onto a badge and then sewn onto the trucker hat. This branding method is the best option for logos that are more complicated or have gradient patterns.
