

## Commitment on engagement activities in line with the goals of the Paris Agreement

ALEXANDRIA, Va., March 10<sup>th</sup>, 2023

Lansinoh recognizes climate change as one of the major issues humanity faces. With great pride, we shared our commitment to become Climate Neutral by 2030. In support of this larger goal, Lansinoh set emission reduction targets validated by the Science Based Targets Initiative.

We are strictly following this science and fact-based approach supporting the goals of the Paris Agreement. This includes reviewing conformity of our engagement activities especially memberships of trade associations, funding, and any direct or indirect influence on policy, law, or regulation with regards to climate change in line with the Paris Agreement goals. Non-conform activities will be terminated.

**Kevin Vyse-Peacock**  
Chief Executive Officer

### ABOUT LANSINOH

For nearly 40 years, new mothers have trusted Lansinoh to support and care for them while they enter the messy magic of motherhood. Born from one mother's realization that birthing people often go without the support they need and deserve, Lansinoh proudly stands with mothers all over the world. The brand's journey started with award winning, doctor recommended HPA Lanolin Nipple Cream: today, it offers a comprehensive collection of solutions to help new parents navigate pregnancy, birth, breastfeeding, and pumping. Lansinoh products are available in more than 70 countries and the company is committed to being climate neutral by 2030. For more information, please visit [Lansinoh.com](https://lansinoh.com) or connect with @LansinohUSA on Instagram, TikTok, YouTube, and Facebook.
