Important Information Regarding Packaging

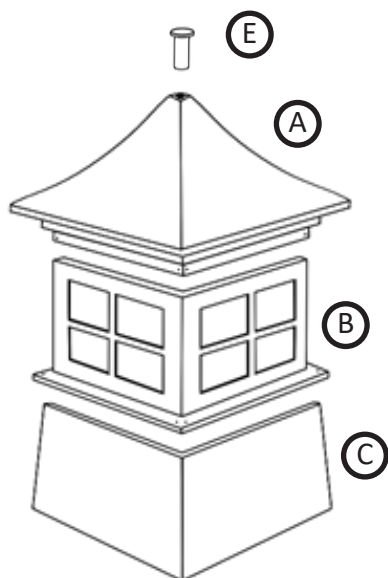

Your cupola base and midsection will come packaged in a nested format. When unpacking, please remove all pieces and separate the base (inverted) from the midsection. Please see the diagram below for more information.

Package Contents & Installation Instructions

Part	Description	Quantity
A	Roof	1
B	Mid-Section (Windowed or Louvered)	1
C	Base (Shiplap or Smooth)	1
D	Screws	25
E	Cupola Seal	1
F	3" Lag Bolts	8

Required (Not Included) : Waterproof caulk, (4) 2 x 4" boards, (2) 1 x 3" boards, Pencil, Tape Measure, Utility Knife, Saw, Drill, Level

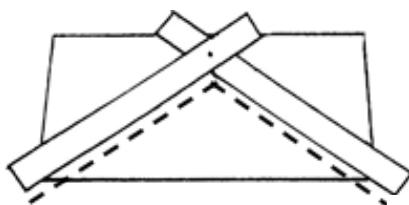

1. Determine your Roof Pitch.

As seen below, nail (2) 1 x 3" boards together so they pivot. Straddle the roof with each board as shown. We recommend cutting the ridge cap to ensure the cupola will sit evenly on the roof ridge. Ensure that each side is flat against the roof and the cross section is centered and aligns with the peak of your roof. Mark the boards with a pencil. This becomes your cutting template.

2. Mark the Cupola Base

Using a tape measure to determine the center of the base, mark the center line (top to bottom) on two opposite sides of the cupola base. Using the cutting template, draw a line from the bottom corners of the base to the center (see left). This is your cutting line. Start cuts at the corners and end in the center.

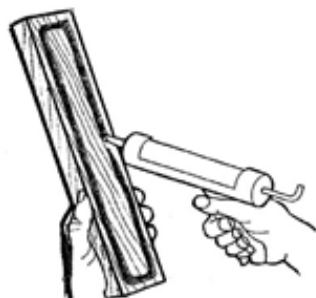

Installation Instructions (Cont.)

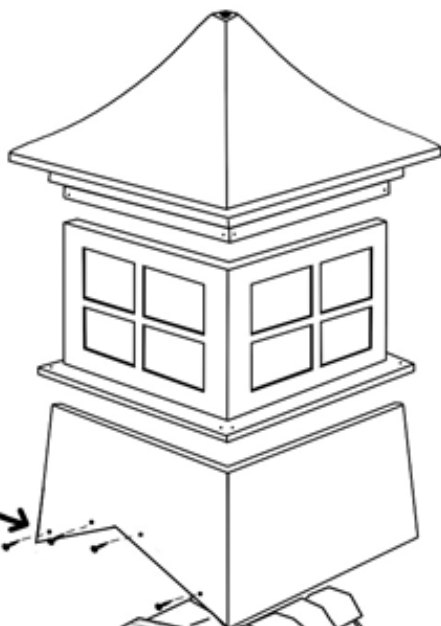

3. Position the Cupola.

Place the base on the roof in your desired position. Caulk the 2 x 4" boards (as shown to the right) and place them on the roof so they are snug against the inside walls of the cupola base. Screw them into the roof using the included lag bolts.

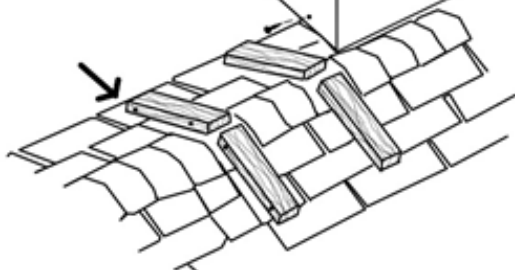

4. Mounting the Cupola

Pre-drill holes into the base (seen to the right) prior to installation. Ensure the base is level. Secure the cupola base to the 2 x 4" boards. After the base has been installed, place caulk where the base and roof meet on the angled sides.

5. Assembling the Cupola

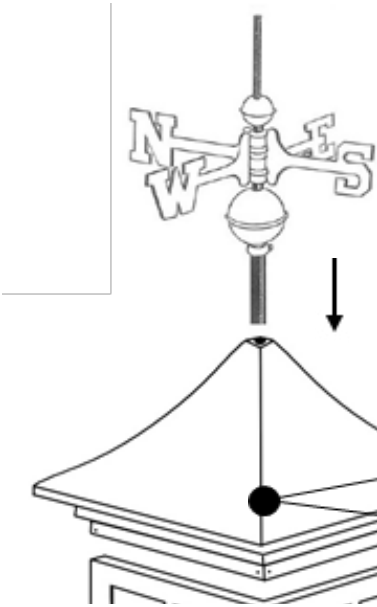

Once the base is secured to the roof, attach the mid-section to the base using the screws (provided) in the pre-drilled holes. Install the roof in the same manner.

Top Off Your Cupola

Good Directions cupolas are weathervane ready. A 3/4" hole on top of the cupola and an internal mounting bracket underneath the roof are standard. If you are installing a weathervane in your cupola, you will need to mount the weathervane before final assembly of the cupola. If you are not mounting a weathervane, please use the cupola seal provided.

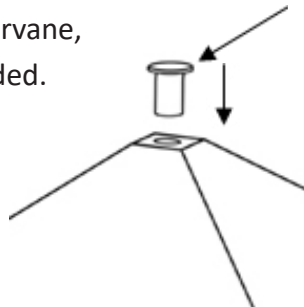

Weathervane Mounting

1. Slide the completed weathervane rod into the cupola roof.
2. Secure the weathervane rod in place by tightening the set screw on the internal weathervane mounting bracket (pictured below). You may need additional extension rods if your weathervane rod does not reach the bracket.

Cupola Seal

If you are not installing a weathervane, please use the cupola seal provided.

1. Apply a bead of caulk to the seam of the tube & disk
2. Insert cupola seal into the cupola hole

Care and Maintenance

Thank you for purchasing a Good Directions Cupola. Our expertly crafted cupolas are designed and manufactured to be low maintenance.

Roofs

- Wooden roofs should be shingled or covered with metal prior to installation.
- Polished copper roofs will patina naturally over time. If you would like to maintain the polished copper finish, you may spray the roof with a metal-specific clear lacquer.

Wood Cupolas

- Wood cupolas should be primed and painted to protect the wood from the elements. They should be repainted periodically to ensure the wood continues to be protected.

Vinyl Cupolas

- Vinyl cupolas are designed to be maintenance free. You may clean your cupola with a mild detergent. We do not recommend using harsh chemicals.
- Vinyl cupolas may be painted with vinyl-specific paint to match the look of your home.

CALIFORNIA PROPOSITION 65 WARNING: Installation and/or repair of this product may cause wood or vinyl dust to be released. Release of this dust can expose you to chemicals which are known to the State of California to cause cancer, birth defects and other reproductive harm. Avoid prolonged inhalation of this dust and contact with eyes and skin. For more information, go to www.P65Warnings.ca.gov.

LIMITED WARRANTY, DISCLAIMER AND LIMITATION OF REMEDIES

Good Directions, Inc. warrants its wooden cupolas and/or cupolas with wooden components to be free from defects in material and workmanship for one (1) year from the date of original purchase, provided that the applicable product was (i) used in accordance with Good Directions, Inc. recommended usages, and (ii) purchased directly from Good Directions, Inc. or from an Authorized Good Directions, Inc. Dealer.

Good Directions, Inc. warrants its vinyl cupolas (excluding any wooden components) to be free from defects in material and workmanship for the lifetime of the product*, provided that the applicable product was (i) used in accordance with Good Directions, Inc. recommended usages, and (ii) purchased directly from Good Directions, Inc. or from an Authorized Good Directions, Inc. Dealer.

This limited warranty covers defects in material and workmanship of any product component and Good Directions will, at its option, repair or replace a defective product or product component or refund the purchase price paid for the defective item. This limited warranty does not apply to any changes in finish color of copper or golden leaf components (which is expected to occur over time), product damage resulting from reasonable wear and tear, improper installation, service or product alteration performed by unauthorized service agents, neglect, accident, theft/vandalism, misuse, or exposure to extremes of heat, humidity, corrosive environments or other Acts of Nature

Good Directions, Inc. will endeavor to supply original replacement parts; however, replacement parts may differ from original parts.

ALL IMPLIED WARRANTIES, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE, ARE LIMITED IN DURATION TO ONE (1) YEAR FROM THE DATE OF ORIGINAL PURCHASE. IN NO EVENT WILL GOOD DIRECTIONS, INC. BE RESPONSIBLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM USE OF THIS PRODUCT, UNLESS SPECIFICALLY REQUIRED BY APPLICABLE STATE LAW.

Good Directions, Inc. makes no other warranties of any kind, either expressed or implied. No dealer, employee, agent, nor any third party, may create or assume any other liability, obligation, or responsibility on behalf of Good Directions, Inc. This Limited Warranty provides purchasers with specific legal rights and other legal rights may also apply, which vary from state to state. This Warranty is not a warranty of future performance or a statement of the useful life of any Good Directions, Inc. product, but only a warranty to repair, replace, or refund.

*“Lifetime of the product” is defined as:

- As long as the product is produced and sold by Good Directions, Inc. Discontinued products will no longer carry a warranty.
- As long as the original purchaser owns the product. The warranty is not transferrable to a new owner.
