

VEGWORLD

MAGAZINE

Date: September/October Issue

Readership: 668,890

From Oprah to Ariana Grande to Julie Andrews, many people look forward to their favorite things. At VEGWORLD Magazine, we are happy to be blessed with so many fun, new products that make checking the mail a little bit like Christmas every day! We are excited to share with you our staff's favorites, from the amazing new sour cream we stumbled on at Expo West to the incredible new cookbook that you can use to delight both your veg and non-veg friends.

MOTILE VEGAN LEATHER COMMUTER LAPTOP BACKPACK

Our Editor is loving the MOTILE Vegan Leather Commuter Laptop Backpack with its timeless design, paired with modern functionality and padded shoulder straps for maximum comfort and ease of wearing. Simple to use double zipper system with vegan leather pulls on a smooth gold-toned zipper. Back storage compartment has padded laptop storage and tablet pocket. With an exterior expandable water bottle pocket, top zip pocket for quick access to personal items such as keys, and an exterior phone pocket that leads to an interior power bank pocket, this backpack covers all the bases!

OZERY FAMILY BAKERY'S ONEBUN

Ozery Family Bakery's OneBun gives you the necessary fiber to keep you full and satisfied (unlike standard hamburger buns that are filled with excess calories, but lack real nutritional value). The Multi Grain OneBuns are pre-sliced buns that contain 7 grams of protein, and – like all Ozery products – the OneBun is non-GMO, free of artificial preservatives, and big on flavor. With the 100 Calorie OneBun, you save calories and can slurge a little extra with your sandwich or veg burger sides!

SEAPOINT FARMS ORGANIC EDAMAME SPAGHETTI AND FETTUCCINE

Pasta lovers everywhere – pull up a chair and prepare to savor the tastiest and healthiest alternative pasta on the market today: **Organic Edamame Spaghetti** and **Organic Edamame Fettuccine** from Seapoint Farms (www.seapointfarms.com). We love how fast it cooks and the fact that it is flour free!

ANCIENT HARVEST ORGANIC MICROWAVEABLE QUINOA

What an easy way to get fast, healthy protein! With flavors like **Sea Salt**, **Chickpeas & Lentils**, **Garlic Quinoa**, and **Southwestern**, you'll love using this instead of rice-based heat and eat products. Coconut oil is the tropical superstar behind this amazing product which contains no gluten, GMOs, rice, or fillers.

EPIC VEGAN

As a trained thespian and vegan chef, Dustin Hader brings his show stopping skills to the kitchen with his over the top culinary creations in **Epic Vegan**. Taking timeless comfort food to a whole new level with over 120 nostalgic, plant-based, Instagram worthy "stunt food" recipes, Dustin's inspiration stemmed from the extravagant milk shake craze and the ensuing "top that" food photos that continue to flood social media feeds.

NUTRAMILK

NutraMilk is the game-changing appliance changing the way we make alternative milks at home and in the shop. Make fresh additive-free milks from nuts and seeds.
