

13 High-End Luxury Gadgets That You Must Have

Jarone Ashkenazi • 7 days ago

NutraMilk

Gone are the days of it taking hours to make your own nut milk and butter as now with the [NutraMilk](#) (\$449.95), users can make up to two liters of their favorite nut milk, or up to five cups of nuts or up to three cups of alternative butter, in less than 12 minutes. No longer do home-cooks need to soak nuts for hours overnight and use additives or other fancy equipment to make homemade nut milk and butter. Thanks to NutraMilk's patented process, crafting your favorite milk or butter is simple as all you need to do is pour any nut into the machine, add any flavors desired and then add water, mix and dispense. With virtually no pulp leftover and no wastage, make everything from nut butter to milk, smoothies, dips and more, a must-buy for the general health-conscious consumers. Dishwasher safe, the system comes with a book of 200 versatile recipes and can be purchased on Amazon or their [website](#). Photo credit NutraMilk
