**BEST. CORPORATE GIFT. EVER.**

## Meet Minky Couture!

Minky Couture is a luxury blanket company that began in 2009 in Layton, Utah. Sandi started with one blanket that was handmade for her daughter who was very ill. The adult size blanket was created and hand sewn with all of the qualities of a baby blanket—cozy, soft, luxurious, fashionable and washable. Popularity of this luxury blanket spread quickly and now Minky Couture has created and sold over 5 million blankets.

# Testimonials

“Each year our company puts on a major corporate golf event. We strive to give our guests branded items that are unique, high quality, and hopefully to be used and enjoyed for a long time. This year we selected Minky Couture “Monster” sized blankets as one of our key gifts. The ‘Minky’ team was phenomenal to work with, and the resulting blankets are insanely awesome! Our company president was so taken by the idea that he requested an extra quantity of blankets that he will use as Christmas gifts for our board of directors.”

— **Ernie Thornton | Sunroc**

“Minky Couture is by far the best client appreciation gifts I’ve given to my customers. Whether male or female, everyone loves a Minky Couture blanket.”

— **Gary Lee Fischer | Credit Union Employee Healthcare Pool**

“Everybody at Minky Couture was so incredibly kind, helpful and proactive during the entire process of ordering our blankets. They took so much care in making sure that the blankets came out perfectly. The blankets were finished so quickly and have been a huge hit within our organization.”

— **Kim Ridl | Davis Arts Council**

# The Heart of Minky Couture

For years Minky Couture has been donating mini blankets to NICUs all over the country to bring comfort and love to precious NICU babies and their families at a very difficult time. The owner, Sandi Hendry has seen first-hand what a difference this small blanket can make in the life of a newborn baby and their family. The goal is to make a difference and provide comfort and love to as many premature infants as possible.
