Product Use

Respiratory protection , The Half mask WILLSON PREMIER large is designed to work when external concentration allows it .

The type of protection depends on the cartridges connected, gases , particles or combined.

The threshold is depending on a theoretical calculation , based on the facial leakage and the efficiency of the adapted canister . The APF is evaluated from 12 to 50 . It allow the use of the Half mask from an external concentration between 12 time to 50 time the Occupational Exposure Limit .

The half mask WILLSON PREMIER large can be used only with certified T SERIES cartridges (following the standard EN 141 , EN 143)

The oxygene concentration has to be superior to 17 %

Features & Benefits**Feature**

Easy assembly

Benefit

Easy and quick care

Feature

Silicone facepiece

Benefit

- Wearer comfort - Long service life - Economical - Easy decontamination

Feature

Rolled, flexible edges of the respirator facepiece (sealing flanges)

Benefit

High level respirator protection

Feature

Perspiration port

Benefit

Comfortable and tight seal

Feature

Four-point floating yoke with wide-neck strap

Benefit

Optimised wearing comfort

Feature

Click-fit cartridge fastening system

Benefit

Ultimate safety
