Stage 5X85	E-85	13 lbs.	Yes	Yes	Stock or Aftermarket	226 Wheel 260 Engine

NOTE: After Flashing and the EVP ECU Unlock is performed, the Can Am Diagnostic Software Tool (BUDs tool used by Dealers) will NOT be able to flash the ECU. This is by design so that the dealer cannot relock the ECU. All other Buds functions will still work. After the unlock is performed and you install your ECU into the vehicle, you will need to reset the maintenance reminder on the dash. This can be done by navigating to the "settings menu", then "reset maintenance" and holding down the center button on the keypad for 5 seconds.
