We are a new-age winery established in 2015 in Tallinn, Estonia. Initially aimed to ride the anticipated "craft cider boom", which in fact never occurred :( At least not where we are from.

Instead, **Rabarbra® Sparkling Rhubarb Wines** brought us acclaim & are successfully competing with popular Proseccos and Cava in Estonia as well as Finland (distributed by Hartwall).

Additionally we produce dry sparkling wines from white currants, gooseberries, and raspberries (but NOT grapes!) and blend **low-sugar spritzes, long drinks & ciders**.

As a **certified organic** producer & brand we seek **exclusive distribution partners** and offer comprehensive marketing support.
