

Goldshield™24
(Antimicrobial & Antiseptic Hand Rinse)

FDA Monograph Registered

TECHNICAL DATA SHEET

PRODUCT DESCRIPTION

A unique alcohol-free hand rinse foam. This product combines a proven and effective antiseptic agent, benzalkonium chloride, with the unique characteristics of the Goldshield technology to provide excellent killing action on bacteria, fungi and viruses, while offering a long-term residual protection up to 24 hours of antimicrobial action. . Additionally it moisturizers and will not deplete the natural oils in skin as alcohol does. It functions by attaching to the carbohydrates of skin that are polyhydroxylated.

Ingredients: Benzalkonium chloride; propylene glycol; purified water; trihydroxysilylpropyloctadecyldimethyl ammoniumchloride; methyl antranilate. .

BENEFITS:

- Goldshield 24 is a registered hand sanitizer and antiseptic at the FDA under OTC (Over-the-counter) Monograph drug program.
