

<u>Bowaters Models – BMGA Series Instructions</u> <u>Gauge one Pullman Coach Bogies</u>

Requires

• Slaters Plasticard 1:32 Wagon Wheels Required Tools

- Fine Sandpaper/Emery paper or boards
- Small Files
- PVA Glue
- Super Glue
- Sharp Craft Knife

Prototype Information

These are the SECR/SR Maunsell Passenger Coach Bogies off our standard kits made available for scratch builders to place their own bodies on top of the them.

About the Kit

The kit is a wooden kit comprising of a set of laser cut wooden parts and 3D printed sections.

Instruction notes

With these instructions, there are images which show various stages of the construction of one of the kits. They are of the Test build for BMGA-006 which isn't representative of the kit you have brought. They are for reference purposes only.

Painting

For painting, it is recommended you refer to prototype images to ensure the models are in the condition that you model (Pregrouping, Grouping or Nationalisation).

Please Turn over

Please read though these instructions before beginning to assemble your kit

Start by gluing together the bottom and side parts of the bogie core to the bogie sides.

Next, glue into place the core top piece.

Now slide in the wheels and bearings. There is enough give in the bogie sides to allow for this to happen without any issues.

Now glue on the springs onto the outside of the bogie.

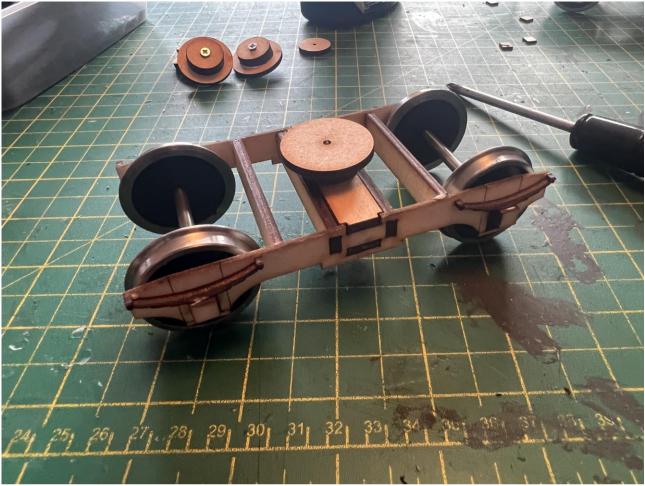

Now, glue into place the bogie stretchers between the wheels and the bogie core as close to the wheels as possible without interfering with the wheel rotation.

Next glue into place the axlebox covers.

To mount the bogies, glue 2 smaller circles and one larger circle together in a tophat shape. It is recommended that you use the mounting screw to hold them together while they dry to ensure correct alignment.

To mount the bogies, the large circle goes against the model's underside with the screw passing though the bogie into the smaller circles.

Your bogies are now complete.

We hope you enjoy your Bowaters Models kit! If you have any questions, don't hesitate to contact us on info@bowatersmodels.co.uk

We thank you for your custom.
