MODELS

Product Catalogue 2024

Small Scale

specialising in distinctive 16mm models

Introduction

Since 2015 Bowaters Models have been producing distinctive 16mm models here in the United Kingdom. We produce rolling stock and motive power kits which are 2.5mm:ft Scale (1:120), 4mm:ft Scale (1:76), 16mm:ft scale (1:19), 15mm Scale (1:20.3), 7/8ths Scale (1:13.7) and operate on a range of gauges. We also produce standard gauge rolling stock and motive power kits which are Gauge 1 1:32 Scale or 10mm:ft scale (on request).

Our ranges currently cover railways from around the world including:

- Cape Government Railways - 4mm Scale
- Ffestiniog Railway - 4mm Scale
- Great Western Railway - TT:120
- South Eastern Chatham Railway - TT:120
- Southern Railway - TT:120/7mm

Our Planned Range includes:-

- South African Railways - 4mm Scale
- Welsh Highland Railway - 4mm Scale
- Expansion to our Southern Railway Range in TT:120 and 7mm
- Expansion to our South Eastern Chatham Railway Range in TT:120
- Great Western Railway - 7mm Scale

We hope you enjoy this catalogue and find the information you need. We're always at the end of an email if you have any questions.

Happy modelling!

Jon Reeves

Great Western Railway – 7mm

The Great Western Railway was one of the big pre-grouping companies that later formed was transformed into one of the Big Four during the grouping. Covering West of England and a large part of the midlands, the railway provided a direct route to Bristol as well as many others.

Core Specification	Technical
3D Printed and Laser Cut Construction	Scale: 4mm Length: Varies Minimum Radius: 4ft Radius Suitable Gauges: 32mm Skill Level: Novice

Great Western Railway – TT:120

The London Brighton and South Coast Railway was one of the 3 big pre-grouping companies that later formed into the Southern Railway during the grouping. Covering Sussex and a large part of Surrey, the railway provided a direct route to Brighton as well as an alternative route to Portsmouth along with the ports of Newhaven and Shoreham by Sea.

Core Specification	Technical
3D Printed Construction	Scale: 4mm Length: Varies Minimum Radius: Hornby Radius 2 Suitable Gauges: 12mm Skill Level: Novice

This is a multimedia kit designed to run on 45mm gauge track. It is based on the BMGB-007 Great Western Railway 'Toad' Brake Van.

Price: **£35**

Available from: Ourselves

South Eastern and Chatham Railway – TT:120

The South Eastern and Chatham Railway was formed from the working union of the South Eastern Railway and London, Chatham & Dover Railway which operated mostly in East Sussex and Kent. As both companies tended to compete in the same areas, a operating merger was only a matter of time for both companies to survive. The railway is particularly famous for the designs of its main CMEs, Harry Wainwright and Richard Maunsell (who later became CME of the Southern Railway).

Core Specification	Technical
Laser cut plywood construction with 3D printed parts.	Scale: 1:120 Length: Varies Minimum Radius: Hornby Radius 2 Suitable Gauges: 12mm Skill Level: Novice

MTT-002 SECR 100 Seater Coach (SR Diagram 52)

This is a multimedia kit designed to run on 12mm gauge track. It is based on the SECR 100 Seater Coach

Price: £35

BMTT-005 SECR C Type Lavatory Brake Composite Coach (SR Diagram 163)

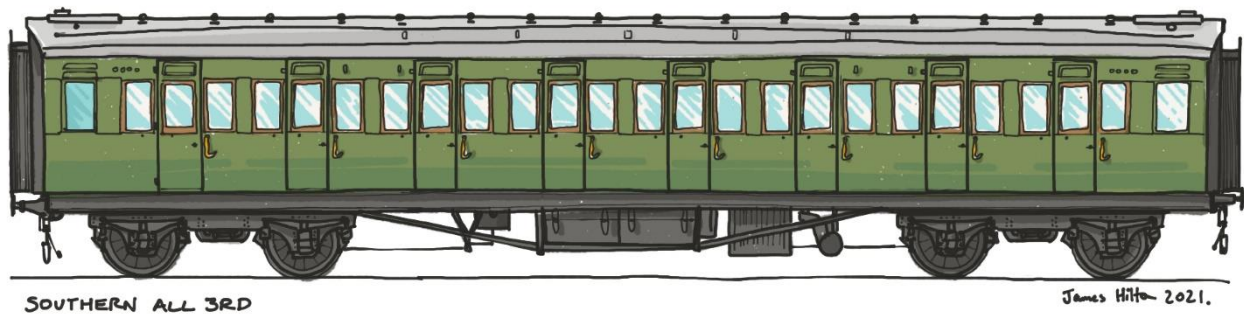

This is a multimedia kit designed to run on 12mm gauge track. It is based on the SECR C Type Lavatory Brake Composite Coach.

Price: **£35**

Available from: Ourselves

Southern Railway – 7mm

The Southern Railway was one of the four big four companies formed from the 1923 Grouping. While it was the smallest of the 4, it was the only one to have most of its income come from passengers due to its relatively huge suburban network plus links to a number of the major continental ports. During the second world war due to its location being close to the front, the railway performed a vital role during the second world war transporting supplies to the front.

Core Specification	Technical
Laser cut MDF construction with 3D printed parts.	Scale: 1:120 Length: Varies Minimum Radius: 4ft Suitable Gauges: 32mm Skill Level: Novice

BM7-001 SR Maunsell R1 Composite Coach

This is a wooden kit designed to run on 12mm gauge track. It is based on SR Maunsell Restriction 1 Corridor First Coach.

Price: **£85 MDF / £100 Plywood**
